VERDICT OF \$12,500.50

Rendered Against the City of Malden Today

In Favor of Charles R. Elder—
The Case of Mann vs. Moore Spinning Company, a Suit for Loss of an Eye, on Trial Today

The case of Charles R. Elder vs. the city of Malden went to the jury after a trial of several days' duration yesterday afternoon, and this morning a sealed verdict was returned. The jury found for the plaintiff in the sum of \$12,500.50.

Mr. Elder, who is a well known lawyer, was employed by the city of Malden in litigation with the commonwealth relative to the taking of Spot pond by the state. In this case the city of Malden was awarded a verdict of \$279,827.4. In payment for his services the city of Malden gave Mr. Elder the sum of \$15,000, which he deemed inadequate and he brought suit for additional compensation. The case was heard before an auditor, who awarded Mr. Elder \$10,000 in excess of the \$15,000 already received by him. The city of Malden declined to pay the additional amount and hence the suit just finished, in which Mr. Elder sued for the amount of the award and interest. John C. Burke of this city appeared for Mr. Elder.

The Mann Case

The case of Charles E. Mann vs. Moore Spinning company of North Chelmsford went to trial late yesterday afternoon. William H. Bent for the plaintiff and Frank F. Dunbar for the defendant. The suit is for \$6000 for the loss of an eye and the plaintiff appeared in court with one side of his face entirely covered by a bandage. The plaintiff in his declaration alleges that he was injured, June 20, 1907, while working for the defendant company. He was wheeling a box of soap, on a truck, and turning it into a vat, when his foot slipped, and he fell striking on a sharp pointed, projecting piece of the machinery. His eye was injured, and the injury finally resulted in the removal of the eye. He claims that the floor was so coated with soap as to cause a dangerous condition, and that he was unaware and unwarmed of the existing danger.

The defendant in his answer alleges that the plaintiff for a consideration released the defendant from all claims, present or future, the consideration named being the sum of nine dollars.

The plaintiff, in reply, denies that he executed or signed the release set up, and says that the defendant obtained the paper from him by fraud, misrepresentation and deceit, when he was in such a condition of physical and mental suffering, resulting from the accident, as to be unable to appreciate his acts. He claims that he supposed

Hood's Sarsaparilla
Cures All Spring Ailments.

Mrs. Marion Bruce, Cumberland, Me., writes: "I have taken Hood's Sarsaparilla for a great many years, and I think it the best blood medicine in the world. I take it both spring and fall. This last winter and spring I was in very poor health. I was weak and had lost all my appetite and I was all run down. As soon as I began to take Hood's Sarsaparilla my strength came back and my appetite returned. I am now well, do my housework, and no longer have that tired feeling."

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

TWO LIVES LOST LARCENY CHARGED

Fire in Manchester, N. H., Caused Damage of \$50,000

MANCHESTER, N. H., April 28.—

George Putney, janitor of the Odd Fellows building, in this city, and his wife are believed to have lost their lives in a fire which burned out the building today. The monetary loss is estimated at \$50,000. Putney and his wife were sleeping on the top floor of the five story structure. When it was learned that they were in the building Morton Wilder, employed in the restaurant of E. R. Barry, on the street floor, ran upstairs to rescue the couple but he was only able to get near enough to them to shout a warning

and had to jump from a window to a fire in the Barry restaurant. The burning grease running over the floor gave the flames a strong start and the building being an old one of brick and wood construction, there was never any hope of saving the property. The building was owned by three lodges of Odd Fellows, Hillsborough. Mechanics and Wildey, which occupied the three upper floors. Besides the restaurant, the lower floor was occupied by Joel Daniels, painter and paperhanger, and the Prescott Piano Co. On the second floor was Hesser's business college. Doughnuts were being fried started the

fire. The property was partly insured.

assistant and soloist. The burial was at the Edson cemetery. Among the floral offerings was a large pillow with the inscription, "I. O. O. F. L. T." from the Loyal Excelsior Lodge. C. H. Molloy & Sons had charge of the funeral.

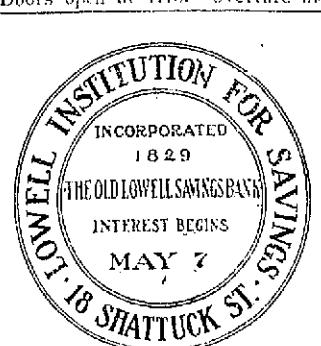

SENTOR.—Mr. Christopher Senior died last evening at his late home, 881 Rogers street, Wamest, at the age of 32 years and 6 months. Mr. Senior was born in Netherthorpe, Yorkshire, England, but had been a resident of this city for the past 17 years until a year ago when he left this city to go to Tacoma, Washington. Until a year ago he was a member of St. Paul's Methodist church. He leaves to mourn his loss his wife, Ada; two children, Doris Muriel and Harold Esmond; his mother, Mrs. Elizabeth Senior; four brothers, George of Tacoma, Washington, Arthur and Hubert of Watertown, N. Y., and Raymond; two sisters, Mrs. Charles Dickson and Miss Mary Senior. Funeral notice later.

EITA BOYER took place yesterday afternoon from the home of her father, Benjamin F. Foster, 77 C street. Rev. J. C. Wilson, pastor of the Chelmsford Street Free Baptist church, officiated. There was singing at the house and grave by Miss Katherine Gordon and John McElveen. The bearers were J. W. Harriman, F. P. Lord, R. J. McCormick and John McElveen. The floral offerings were numerous and beautiful, including large pillow inscribed "Daughter and Sister," from father and sister; large spray of sweet peas inscribed "Sister," from Mr. and Mrs. J. W. Harriman; large spray of pine roses, Mr. and Mrs. F. P. Lord; large standing wreath on base from George M. Foster; standing heart on base from Mr. and Mrs. Barnard; large horseshoe on base from neighbors; large basket inscribed, "We Will Miss You, Eita," from Mr. and Mrs. F. H. Brown; sprays from R. J. McCormick, John McElveen, Mrs. Flood and son, Mr. and Mrs. A. G. Thompson and family, Mr. and Mrs. Sanford Leary, Chelmsford society, Free Baptist church, Mr. and Mrs. August Anderson. Burial was in the Edson cemetery under the direction of J. A. Weinbeck.

LYNCH.—The funeral of Mr. James J. Lynch took place this morning from the funeral parlors of Undertaker Thomas J. McDermott at 8:30 o'clock and was largely attended by relatives and friends. The cortège proceeded to St. Peter's church where at 9 o'clock a high mass of requiem was celebrated by Rev. W. George Mullin. The choir under the direction of Mr. James E. Donnelly sang the Gregorian mass. There was a mammoth pillow inscribed "At Rest" from M. J. Markham, Ralph Cullinan, John Sheedy and John O'Neill; a large spray of carnations inscribed "Rest" sympathy of Jeremiah McGlinchey. The bearers were Messrs. Arthur Sladen, James Doyle, John Sheedy, James McKenna, Hugh McKenna and Arthur McQuade. Burial was in the Catholic cemetery where Rev. W. George Mullin read the committal prayers at the grave. Funeral Director Thomas J. McDermott had charge.

morning Inspector Laflamme recovered the clothing.

Owing to the fact that Bellrose was on parole from the Concord reformatory he was returned to that institution and Marchand was sentenced to the same place.

Sent to Jail

Frank Stone, who appeared before the court yesterday on a charge of larceny of a coat from Elie Cawley of 39 Appleton street, was this morning sentenced to two months in jail. The court in imposing the sentence said that while the man had led a good life up to the present time his condition warranted his confinement for some time.

Case Continued

Evangelos Quayangikas, with the right side of his face swathed in plasters and a bandage, was in court to appear against Vasilios Pene, who is alleged to have struck him with a stick last night. At the request of counsel the case was continued until tomorrow morning.

Drunken Offenders

Henry Miller said that he was not drunk, but Special Officer Mahan said that the man was very much under the influence of liquor when he placed him under arrest. The officer said that he found Miller lying on the sidewalk on the corner of Suffolk and Ford streets about 12 o'clock last night.

During the course of the defendant's remarks he said that he came out of jail yesterday morning, but denied that he had been drinking. He was sentenced to the state farm.

John Ward, charged with being drunk, was sentenced to the state farm and John Finnegan and Edward R. Smith were each fined \$5.

STATE HOUSE NEWS

Eight Hour Bill Was Put Over to Tuesday

BOSTON, April 28.—Contrary to expectation, the senate did not vote on the eight hour bill yesterday, but on motion of Senator Turle of Pittsfield put it over until next Tuesday. True, it is said, has some "interesting amendments" to offer. The labor lobby wanted to see them yesterday, but hadn't up to the time of adjournment.

The same senator had the Tillman anti-injunction bill postponed to the same day, and Senator Mulligan saw to it that the amendment union bill to which he is opposed was put on the calendar for Tuesday.

Rankin Explains Absence

Senator Rankin of Taunton rose to a question of personal privilege. He objected to being criticized, not only in his own district, but all over the state, for not being present at the roll call on the "85 hour bill" Tuesday. Senator Rankin said that no member of the senate was a more ardent friend of labor than he, but he is chairman of the committee on engrossed bills and papers come over from the house so late that he has to go without his lunch to be in the senate on time.

Tuesday, he said, he got his lunch, and then being interested in the \$35,000 fish hatchery for his district, went into the fish and game commission. When he got into the senate again, he wished to explain that he did not "duck" the bill and no man felt worse than he did that he was not present to vote for reconsideration.

That Senate Elevator

In the lower branch Mr. Brown of Medford and Mr. Conwell of Somerville urged a motion of the former that the house reconsider its action in rejecting the bill providing for an additional elevator for the accommodation of members of the senate.

Mr. Pope of Leominster said the question before the house was whether the members will be courteous to the members of the senate or to the taxpayers of the commonwealth.

The motion was also opposed by White of Brookfield, Knight of Boston, Holt of Springfield, and Barlow of Lowell, and it was defeated, 44 to 73.

Middlesex Court Accommodations

The bill authorizing the county of Middlesex to construct a new building in Cambridge for the third district court of session of Middlesex, the debate on which was begun Tuesday afternoon, the Cambridge representatives being practically unanimous in their opposition to the bill.

Mr. Ahern of Falmouth believed the accommodations of the present court house are utterly inadequate for the county which does the second largest business in the commonwealth. Mr. Conway of Everett said he could find no demand for the construction of a \$60,000 court house for this court, and he did not believe the taxpayers of the county ought to be burdened with such an expense. The bill was rejected, 38 to 30.

Pasteurized Milk Bill Passed

The bill requiring the state board of education to assist school teachers in securing positions and the resolve providing for an investigation and report as to the adaptability of the public waters to the rearing of food fish were referred to a third reading without debate.

Mr. Dean opposed the pasteurized milk bill, fearing that the sale of milk of this character was the cause of the scarlet fever epidemic in Boston. This was denied by Howard of Easton, Conway of Boston and McFarthy of Marlboro, and the bill was passed to be engrossed.

Worcester Tech Gets \$15,000

When the bill making an appropriation for the Worcester Polytechnic Institute in return for the granting of 40 free scholarships at the institution was reached, Mr. Bellamy of Taunton offered an amendment providing that the number of scholarships shall be 50.

Mr. Carmody of Worcester opposed the appropriation on the ground that the state should not lend its aid to

NEW MEDICAL DISCOVERY For All Skin Troubles

A chemist who was convinced that the old method of taking internal remedies to cure skin diseases was erroneous, has discovered that an extract from a particular part of a well-known tree possessed antiseptic and curative properties on the skin tissues. It was, however, found that this valuable vegetable extract was difficult to compound with other ingredients necessary to present it in a form convenient to use. After further investigations and experiments, a method of special treatment was devised, resulting in a combination of ingredients possessing to a marked degree valuable therapeutic properties, the like of which has never before been produced. This important product is known as Cadum. Since its introduction Cadum has cured many cases of chronic eczema and other unsightly, irritating, and distressing skin diseases, and this after other treatments have failed. Cadum stops the terrible itching of eczema at once, and begins the healing process with the first application. Its action is still more remarkable in less serious skin troubles, such as hives, pimples, blotches, tetter, itch, acne, herpes, scaly skin, psoriasis, ringworm, rash, chafing, eruptions, sores, itching piles, scurvy, backheads, scabs, etc. Many of the results effected by Cadum may be truly called remarkable. It destroys disease-producing germs, allays inflammation, and is soothing and healing to the skin. Trial Box 10c; large box 25c.

an institution which is selling machinery in competition with private manufacturers. Mr. Mollen of Worcester took a similar attitude. Mr. Washburn of Worcester favored the bill and opposed the amendment.

The Bellamy amendment was lost, 43 to 77, and the bill ordered to a third reading.

Lifting Jacks on Cars

Mr. Heneberry of Worcester moved to substitute for an adverse report of a bill to require street railway companies to equip their cars with lifting jacks. He declared that there are many instances in which human lives could have been saved had there been a lifting jack to lift the car from their bodies.

Mr. Munroe of Peabody said the law at present permits the railroad commissioners to require the carrying of those utensils if they are necessary, and the matter should be left to the body of experts.

Mr. Conway of Boston said the agitation for lifting jacks has been going on for five years or more, and the railroad commissioners have done nothing; he did not think it should be left to them any longer.

The hour of adjournment cut off debate.

Automobile Regulation

The committee on roads and bridges reported an automobile bill, amending the codification of last year, to provide that autoists from out of the state may remain in Massachusetts 10 days without registration, provided the state or country from which they come grants the same privileges to Massachusetts autoists, also to remove the restriction as to chauffeurs wearing the metal seal on the sleeve, also to provide that plates may be carried not higher than 48 inches above the pavement, instead of 36 inches, also as to signaling to provide that no horn shall be sounded so as to make an unreasonable noise.

Representative Willets' dissent from so much of the bill as relates to the making of unnecessary noise in signaling.

Meals for School Children

In the senate the ways and means committee reported ought not to pass on the resolve that the state board of education investigate the practicability of authorizing cities and towns to furnish meals for children in the public schools.

Also ought not to pass on the bill to establish salaries of county commissioners of Bristol amended by striking out \$5,000 and inserting \$15,000. At present \$3,000 is allowed for salaries of Bristol county board. The committee on ways and means gives them an increase of \$600, but not \$1,600 as the original bill proposed. The three commissioners will get a raise of \$300 apiece.

Herring Bill Engrossed

Senator Teeling moved reference to the next general court of the bill to regulate toning for herring in Cohasset, Scituate, Duxbury and Plymouth waters. The committee claimed that the people didn't want this bill and that there should be a general bill next year.

Senator Keith of Bridgewater said that the selection from each of the towns appeared before the committee on fisheries and game and demanded this bill. He opposed reference to the next general court.

Senator Nash of Hanover opposed the reference. He said there wasn't a particular opposition to this bill when it was heard.

Senator Teeling said if they had known of it, he would have filed the bill with nonresidents.

The motion was rejected on a rising vote, 5 to 15. The bill was then engrossed.

Tunnel to South Station

These committee reports were filed in the house:

Metropolitan affairs, a resolve directing the Boston transit commission to prepare plans and an estimate of the cost of considering a tunnel from Park street to South station (Representative Thomas' dissent) and a bill to provide further for the abatement of the smoke nuisance in Boston.

Fisheries and game, a bill authorizing the commissioners on fisheries and game and their deputies to search without a warrant.

Ways and means, ought not to pass on the bill providing for a bathhouse on the Mystic river, under the control of the metropolitan park commission.

Judiciary, a bill to revise the procedure in the trial of cases originating in the land courts in accordance with the recommendations of the commission on the delay in the trial of each case; leave to withdraw on the resolve providing for the appointment by the governor of a commission of three persons to investigate in regard to the character, methods and operation of voluntary associations of trusts organized to help the practice of valid claims against the state in Massachusetts; leave to withdraw on the bill to extend the sitting of the superior court at Worcester; leave to withdraw on the bill authorizing appeals to the supreme court in cases of the setting aside of verdicts; next general court on the bill providing that when new trials are ordered in cases of personal injury a new trial shall be only upon the question of damages; next general court on the bill providing that verdicts shall be set aside for fraud in the conduct of the suit or for incompetency on the part of a member of the jury.

Blue Hills Bill Fails

Metropolitan affairs, leave to withdraw on the bill providing that the Blue Hills reservation shall be preserved in its natural state.

Ways and means, ought not to pass on the bill providing that in the case of offices subject to the civil service regulations, if no eligible list of employees is prepared, competent persons may be employed until the preparation of such lists, and if no list is prepared within six months, such persons shall not be discharged except by order of the employer; a bill appropriating \$15,000 for the New Bedford textile school contingent upon an appropriation of \$10,000 by the city. Representatives Root, White of Newton, O'Brien and Conway dissent.

Judiciary, next general court on the bill to increase the number of assis-

SEN. BURROWS

Decides to be a Candidate Again

WASHINGTON, April 28.—Senator Burrows of Michigan is going to run again, after all, for the United States senate. Denials that he would not be a

candidate for re-election have been issued from his headquarters here. Congressman C. E. Townsend will oppose the Michigan senator.

ARREST WOMAN

She is Charged With Kidnapping

NEW YORK, April 28.—A well-dressed woman, who said she was Mrs. Alfred Doug of 421 Laval street, Montreal, Canada, was arrested on board the Clyde line steamer Comanche yesterday afternoon, just as she was about to sail for Jacksonville, Fla. With the woman was a 2-year-old child. Mrs. Doug was taken to police headquarters. The complainant against Mrs. Doug is a Mr. Walsh, who represents the Children's society of this city.

John Liquor, 16, of 19 Hennepin street, fell from the walls of the new Mills in course of construction on Addison street, East Boston, and was taken to the East Boston relief hospital. Hugh Connolly, 16, of 69 Warwick street, a teamster, was jammed between his team and the New England storage warehouse at 33 George street, and taken to the city hospital.

Mr. Walsh called on Inspector Russell, in charge of the detective bureau, and showed him a telegram he had received from O. H. Skodden, superintendent of the Society for the Prevention of Cruelty to Children in Montreal, in which the latter said that Mrs. Doug had kidnapped two-year-old Yvonne Dugal from the home of her foster parents in Canada and had left for this city on her way to St. Augustine, Fla.

SUDDEN DEATHS

Boston Men Passed Away Quickly

BOSTON, April 28.—Andrew McLellan, 48, of Westwood; George McConwas, 48, of Riordan place, Charlestown, and John B. Johnson, 34, of 19 Railroad street, Braintree, met sudden death in Greater Boston yesterday. McLellan fell from the seat of a wagon he was driving at the corner of Hyde Park and Neponset avenues yesterday afternoon and was instantly killed.

McConwas, while unloading coal at the Gashouse wharf on Arlington street, fell into the hold of the coal barge and was instantly killed. Johnson in company with his wife, was passing through Bowdoin square when he was taken suddenly ill. He died before the doctor of a passing ambulance could reach him.

Charles B. Smith, 71, yesterday waded into Jamaica pond and was pulled out by James Kilby, a special officer of the park department. He was sent to the City hospital suffering from the shock.

John Liquor, 16, of 19 Hennepin street, fell from the walls of the new Mills in course of construction on Addison street, East Boston, and was taken to the East Boston relief hospital. Hugh Connolly, 16, of 69 Warwick street, a teamster, was jammed between his team and the New England storage warehouse at 33 George street, and taken to the city hospital.

Leave to withdraw on the resolve providing for the appointment by the governor of a commission of three persons to investigate in regard to the character, methods and operation of voluntary associations of trusts organized to help the practice of valid claims against the state in Massachusetts; leave to withdraw on the bill to extend the sitting of the superior court at Worcester; leave to withdraw on the bill authorizing appeals to the supreme court in cases of the setting aside of verdicts; next general court on the bill providing that when new trials are ordered in cases of personal injury a new trial shall be only upon the question of damages; next general court on the bill providing that verdicts shall be set aside for fraud in the conduct of the suit or for incompetency on the part of a member of the jury.

RACE FOR \$50,000

Paulhan and White Engage in an Exciting Contest

LONDON, April 28.—The struggle which placed him 57 miles ahead in the race when darkness compelled both to alight for the night.

Paulhan's machine, only arrived in London at 6 o'clock in the morning, and both he and White were busily engaged all forenoon in fitting up their aeroplanes and perfecting arrangements for the start.

The weather was favorable, but owing to the heavy work involved in preparing the machines it was supposed that the start would be deferred until today.

The two aviators had met early in the morning and discussed plans, expressing the hope that they would meet each other in Manchester. During the day constantly increasing crowds gathered at Park Royal and Hendon, the respective headquarters of the two men, in the hope of witnessing the trial flights. Late in the afternoon White, tired out, returned to his hotel

AN HONEST DOCTOR

remarked to his patient who had been cured by Lydia E. Pinkham's Vegetable Compound after his efforts had failed, "Mrs. Weber, I do not believe in patent medicines, but I will say that Lydia E. Pinkham's Vegetable Compound is the best medicine ever discovered for women. Continue to use it." This is another link in the long chain of evidence to prove the reliability of this standard medicine for women.

SCENE IN "HAVANA" AT OPERA HOUSE TONIGHT.

and went to sleep, intending to start in the morning. Meanwhile, the spectators at Hendon were surprised to see Paulhan, after trying his machine, take farewell of his wife, who told a large map of the route around his waist.

Paulhan kissed his wife and took his seat in the aeroplane.

After a brief trial spin, which he made with the object of finding out if the motor was working well, Paulhan traveled a short distance to the southward of his starting point so as to get within a five mile radius of Charing Cross required under the rules of the contest. Then, swerving quickly to the right, the French aeronaut picked out the London & Northwestern rail-road, above which he flew northward at a fine speed despite a smart head wind. Prior to his departure Paulhan announced his intention of trying to reach the goal without a stop.

White Also Starts

Word that the Frenchman had started quickly reached Park Royal. Rushing into White's room his friends awakened him. White sprang to his feet, flew down stairs, jumped into a motor car and made for the garage at full speed, and within 20 minutes was sailing around the gasometer at Ken-sil Green, in the first stage of what will certainly be the most exciting sporting contest ever held in Great Britain.

White passed over Bletchley, 18 miles south of London, 70 minutes behind Paulhan. He was flying considerably higher than the Frenchman and seemed to be making faster time and a straighter course.

The news of the race spread like magic in the towns and villages along the railway, which the aviators followed closely. Paulhan, being guided by a special train, steaming rapidly northward. The people gathered everywhere to get a view of the novel sight. The sun went down and the cloudless sky gave the spectators an opportunity to watch the aviators as they successively passed at varying heights. At Rugby Paulhan was a thousand feet up, and the pulsation of the engines could be faintly detected below.

Forced to Descend

The crowds cheered themselves hoarse. The machines appeared sometimes to be swaying dangerously as they met the varying air currents, but still the daring aeroplaniests held their course until approaching darkness compelled them to seek a safe descent. Towards 8 o'clock streams of automobiles and other vehicles brought thousands of people to the outskirts of Lichfield. Suddenly a shout went up: "There he is," and half frozen and almost exhausted by his effort, Paulhan safely descended in a field close to the Trent railway station amid frantic cheers of 3000 people.

Speaking of his flight, he said: "I came down because it was too cold to trust myself longer in the machine. It seemed too dangerous. My hands were numbed, the wind was very gusty, and I was hardly able to descend without an accident."

Paulhan went to a hotel and immediately retired to sleep, asking to be called at 2:30 a.m., and ordering breakfast for 3 o'clock. Almost at the same hour White came within sight of Northampton, where he sought vainly in the gathering darkness for a safe landing place. This he was unable to find in safety. I suffered from the intense cold and wasn't quite sure of my location."

White appeared fresh and expressed his intention to start again at daybreak. When told of Paulhan's flight he exclaimed:

"Good! It was plucky to get so far. I know what a strain it is."

White's mother, who followed by train, soon joined him at the hotel. Neither of them seemed much concerned at the possibility of the French aviator reaching Manchester first.

Paulhan has about 117 miles to his credit in the 180-mile contest, while White has only 60. Both traveled at the rate of between 35 and 40 miles an hour.

Paulhan's magnificent flight of 117 miles without descent in 2 hours and 50 minutes, compares favorably with his flight on April 18 from Orleans to Arcis-sur-Aube, a distance of 118 miles, in 3½ hours. The following shows the progress of the race:

Paulhan—Hendon	start 5:20 p. m.
Bletchley	47 miles, 6:27 p. m.; Reade
6:34 p. m.	6:45 p. m.; Rugby, 83 miles, 7:21 p. m.; Litchfield, descent, 8:10 p. m.
White—Start 6:30 p. m.	Tring, 32 miles, 7:15 p. m.; Bletchley, 47 miles, 7:35 p. m.; Wolverton, 53 miles, 7:50 p. m.; Reade, descent, 7:55 p. m.

GIRL IS ACCUSED

She Admits Having Set Fire in House in Newport

NEWPORT, R. I., April 28.—Anna Foy, 16 years of age, is under arrest at police headquarters, a self-confessed firebug. She acknowledges to the police of having set three fires at the residence of Mr. and Mrs. George W. Ritchie, April 23, 25 and yesterday morning.

When the fire which did about \$300 damage yesterday was extinguished, Mr. Ritchie called the police. Chief Crowley detailed Inspector Tobin, who questioned the girl, a maid in the household. After talking over the case she acknowledged setting the fires. She gave as the reason an ungovernable desire from nervousness to set fires.

Miss Foy said she came here less than six weeks ago from Pawtucket, where she says she stopped with an aunt, after leaving New York, where she was born. She said her parents were dead.

After a short stay in Newport and through an intelligence office the girl secured the position with Mr. and Mrs. Ritchie. About 10 days ago Anna wrote a letter which made goodly to her em-

ployers and stating that she was thankful for what they had done for her and was sorry she was leaving. The departure was not made as the letter dropped by the girl was picked up in the house and read by Mrs. Ritchie, which resulted in the girl's staying there.

Anna after being questioned about the letter by the inspector stated that that night she intended setting fire to the house and the finding of the farewell letter and the talk between the girl and her employers interrupted her plans.

The girl in a cell last night refused to partake of food, but the matron persuaded her to eat an orange, which she seemed to relish. Anna appears to realize the serious position she is in and cried bitterly. She seems possessed of intelligence and tells of the desire which seizes her to set fires.

When the fires were discovered Anna would be found in another part of the house and always assisted in extinguishing the flames, that of last Saturday morning being fought by Mrs. Ritchie and Anna alone. It was confined chiefly to a lounge.

ELEPHANTS STAMPEDE

Several Persons Injured and Property Was Damaged

DANVILLE, Ill., April 28.—Several persons were injured and much property was damaged yesterday by nine elephants, which stampeded, just after they had been unloaded from a car after several hours' ride from Chicago.

A large bull elephant made a break for liberty, bowing over the keeper and escaping. The animal was followed by seven other bulls, which ran bellowing through the streets and across fields. Later, while the entire force of trainers and keepers was engaged in the unusual sport of hunting elephants by automobiles, a female elephant escaped.

For several hours the elephants were at large, hunted by all the attaches of the circus, all the city policemen and the more venturesome citizens.

The elephants at first moved in a bunch, then separated. They stopped for nothing except brick and stone buildings. Such small frame structures as coal sheds, fences and trees as came in their path were pushed over, trodden down, uprooted and thrown to one side.

At the home of William Miller three elephants found sufficient room to pass

between the summer kitchen and house, so they pushed the kitchen aside, frightening the persons therein from the table, but injuring no one.

At the home of Joseph Peebles, after overturning a shed and killing a horse, one of the animals attacked Peebles and hurled him against the side of his house. Peebles is in a critical condition.

Barny O'Neal, Liverymen, was thrown from his wagon by the elephants as they dashed down a side street in front of his town.

F. Krabbe, one of the keepers, while assisting in stabbing three of the bulls after their capture, was buried against the side of a barn and injured.

Several other persons were slightly injured, mostly because of horses being frightened by the elephants and through their own fright in the stampede.

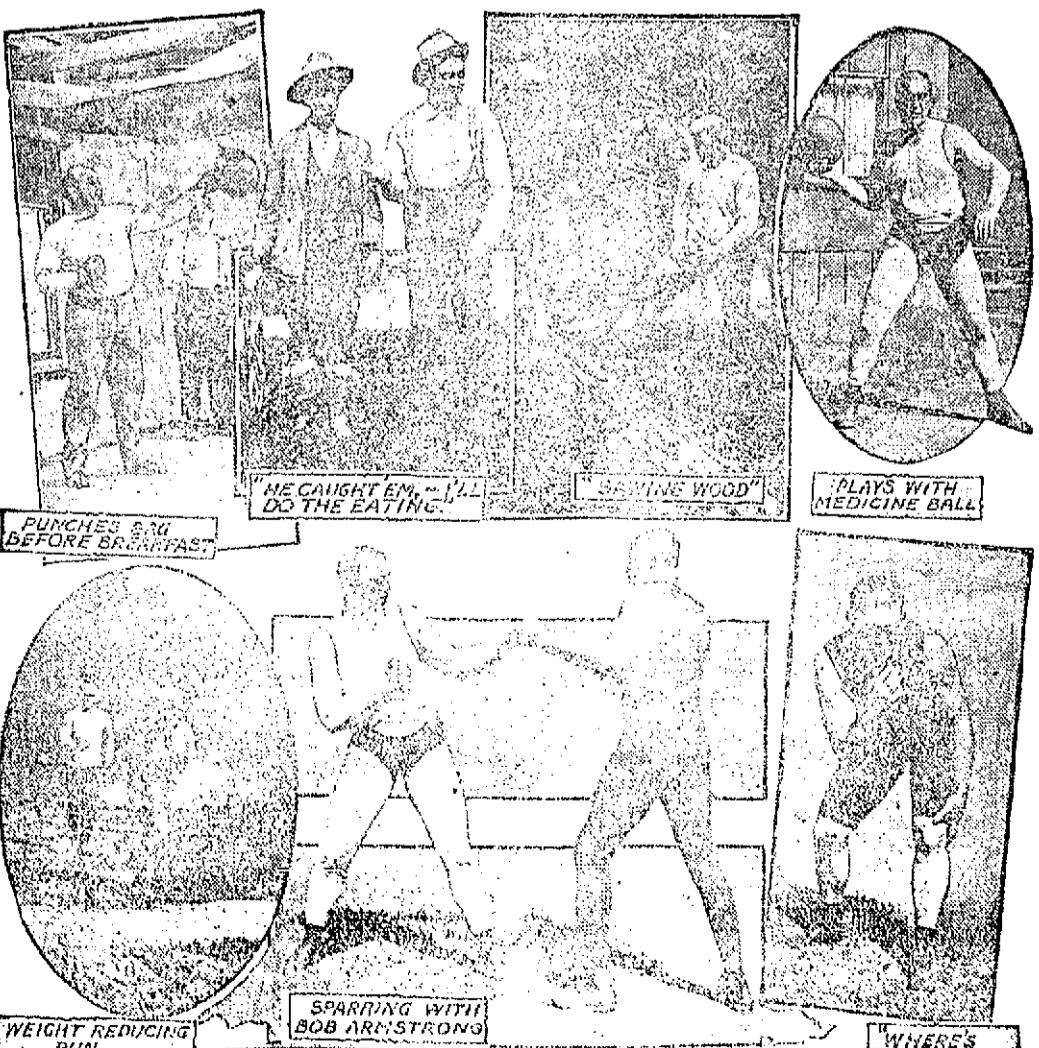

More than 100 homes were damaged to some extent, but the total loss will probably not exceed \$10,000.

Several truck gardens and orchards were partly ruined in the outskirts of the city, while many shade trees were broken or uprooted.

STARS OF PITTSBURG AND CHICAGO TEAMS-- SERIES WILL GIVE LINE ON THEIR STRENGTH

A PICTORIAL DAY WITH JAMES J. JEFFRIES IN HIS TRAINING CAMP, ROWDENNAN, CAL

ROWDENNAN, Calif., April 28.—If the minute, but did he sleep well last night? Big Jim only ate nine eggs for breakfast this morning, but how's he doing now? He's getting fit fast. Is he going back? Bud says, tell me! Hanes Wagner and Ty Cobb will be short this year, but how's Joe Jackson? Some folks may be surprised to strike Mother Earth a little, though a duel with baseball bats, and see that Senator Albrecht will leave south of Kalamazoo, Mich.; but say, both are dead. Yes? Well, interest-

DAKOTA DAN RUSSELL

Was a Caller at the Sun Office Yesterday Afternoon

Daniel Blake Russell, "Dakota Dan," the conspicuous figure in the great Russell will case, was a caller at the Sun office yesterday. Mr. Russell said he dropped off in Lowell and decided that he would call at The Sun office. He had less than five minutes to spare and did not talk much about the recent will case.

He had paid a visit however, to an old Melrose boy, Frederick B. Leeds, the Merrimack square ticket agent. Mr. Leeds said that he had a real good talk over old times with Dakota Dan and Mr. Leeds allows that Dan knows

all about Melrose in the olden days. Mr. Leeds said: "I left Melrose before Daniel Blake Russell and I was too young to remember Russell and I was about 40 years ago. Mr. Russell called at my office this afternoon and we had a real good chat. He knew all about places that I had heard my father talk about and it seems to me that he must have lived there years ago. I recalled certain persons and incidents that I had heard my father talk about and Mr. Russell seemed perfectly familiar with them. I enjoyed his visit very much."

RICH EGYPTIAN

Has Shipped as a Cattleman

BOSTON, April 28.—Hassan Ali, a wealthy Egyptian, left Boston at noon yesterday as a passenger on the Leeward line steamship Bohemian for Liverpool. All arrived in New York two weeks ago on one of the fast steamers. He was well supplied with money and intended to make an extended tour of the country.

The night after his arrival in New York he was waylaid by highwaymen who knocked him senseless with a blackjack and then robbed him of all his money and valuables.

Hassan Ali had friends in New York, but rather than ask them to assist him he came to this city and signed as a cattleman on the Bohemian. He goes back to Cairo with a poor opinion of this country.

John Smith, the 15-year-old English lad, whose parents died in this country, and who endeavored to get a chance to work his passage on the steamer Megantic, sailed Tuesday, also left for England on the Bohemian. He signed at a cattleman.

Commissioner Hill received many letters offering employment to young Smith, and one charitably disposed person sent \$10 to aid the lad. The money came too late, however, as the steamer was then on her way out of port.

The Bohemian carried a large general cargo, including provisions, flour, lumber, hay, cattle and 1500 tons of San Domingo sugar.

A BABY RAT

WAS NURSED BY A TABBY CAT

GLOUCESTER, April 28.—The family tabby cat nursing and caring for a baby rat was the strange sight met the eyes of the young daughter of Dr. F. P. T. Legan of 42 Middle street, yesterday.

The family cat gave birth to a litter of kittens the other day, but all of the family did not survive and the mother cat felt that she had enough and to spare of love for even a baby rat looks now as if the Pittsburgh, Chicago, my Evers is on the job and Archer has

developed into a fighter who King

the Cubs in two games in Pittsburgh, Philipp, his veteran twirler, is in such good shape that he will pitch in the Union. At the close of the roll call the brothers retired to the banquet hall where all sat down to a spread prepared by P. C. King and Mrs. Robert J. Fullerton of the Pythian Sisters, also Miss Gladys King of Brookside.

Retiring to the lodge room, P. C. Robert J. Fullerton acting as toastmaster, called on P. C. F. W. Thaler, who made extended remarks on the good of the order. He was followed by P. C. Way of Andover, William Ballou of Acton, P. C. Clark, Joy, Mansur, Scott, Beals and others of Samuel H. Hines lodge. Visitors were present from California, Woonsocket, New Brunswick, Maine and Cambridge, who made extended remarks. D. C. C. Isaac W. McArthur of Cambridge was present and made an address. He was listened to with pleasure as he is a fluent speaker. The thanks of the lodge were extended to the Pythian sisters, who so kindly lent their services to make the banquet a success.

Royal Arcanum

The 33d annual session of the grand council of Massachusetts Royal Arcanum will be held Thursday and Friday, April 28 and 29, in hall, on third floor, Odd Fellows building, 674 Main street, Worcester, Mass.

Officers and representatives who will attend from Lowell will be: John J. Hogan, Esq., past grand regent; Albert W. David, past grand regent; Alonso G. Walsh, past grand regent; Dr. Hugh Walker, grand scribe; representatives, Joseph H. Paridis, Fred Chandler, Lowell council; No. 8; A. H. Bixby, Felix B. Langevin, Highland council; No. 9; R. T. Moyer, John J. Ivers, Industry council; 1722; G. A. Johnson, John Erlestan, council, 1833; A. L. Tellier, Rochambeau council, 2064.

No. 2 Brownie—2½-3½ prints, 2c each.

No. 2A Brownie—2½-3½ prints, 3c each.

No. 3 Brownie—3½-4½-3½-3½ prints, 3c each.

No. 3A Brownie—3½-4½-4-5 prints, 4c each.

Also 8-10 enlargements (regular 65c), 37c each, 3 for \$1.00.

This offer is made only for the purpose of inducing any who have not had their printing done here to try my finishing. I have positive proof that no store in this city is doing business to equal the work you receive here. All false, misleading statements to the contrary notwithstanding.

This is the only place in the city where your films are finished by photographers—and you can prove this for yourself. Compare my work rooms with the systems used by stores jobbing your work out to be finished.

FIRE CHIEF SUSPENDED

Head of Lawrence Dept. Charged With Incompetency

LAWRENCE, April 28.—At an adjourned meeting of the aldermen last night, Mayor White preferred charges of incompetency against Fire Chief James A. Hamilton, and although no action was taken by the board regarding confirmation of the mayor's action, he suspended the chief pending a hearing on the charges May 11.

The aldermen insisted on a hearing when the mayor asked them to sustain him in his removal of the chief, and it was only after the board showed that it would not countenance a removal without giving the chief an opportunity to refute the charges that the mayor ordered suspension.

The mayor's authority in suspending without confirmation by the board was questioned, but he claimed he had the right.

The charges name incompetency, extravagance in the purchase of supplies and in ordering repairs and acting without authority from the city government.

The mayor made an attempt to oust Register of Voters A. H. Rogers and Park Commissioner Daniel F. Daly, whose terms expire this year, by naming several for those positions. The board refused to confirm the appointments, however, in each case.

An order was adopted authorizing the mayor and the president of the economic council to appoint a committee to consider the advisability of remodelling the city hall, so that all city departments can be located in one building and better accommodations may be had for those already stationed there. Many of the city participants are now scattered about the city and in some cases are situated in rented property.

A petition from the members of the fire department for an increase of 10 per cent in wages was granted.

A preliminary step was taken in a movement for the establishment of suitably equipped playgrounds at the various schools for the passage of an

order providing for the expenditure of \$6000 for a playground at the John K. Tarbox school that will have wading and swimming pools, gymnastic apparatus and shower baths.

The mayor refused to name a board of health, because he said the aldermanic board did not seem to favor his nominees. So the city is still without a board of health.

NORTH CHELMSFORD

The North Chelmsford Choral society gave a delightful concert before a large and appreciative audience in the Second Congregational church last evening. The chorus of 40 voices was assisted by Mrs. Nano Gallagher Leahy, Mrs. Daisy Duncan and Mrs. Hanson, as soloists; Arthur Booth, violinist; and Miss Ethel A. Hinton, reedier. Mr. Pickens ably directed the chorus and Mrs. Slater was the organist, with Miss Helen Savage and Herbert Waterhouse as accompanists. The program was as follows: Chorus, "Soldiers' Chorus," Gounod; solo, "Lullaby from Jocelyn," Godara, Mrs. Nano Gallagher Leahy, male quartet, "Eldorado," Ciro Plauti; Masses, Tettley, Waterhouse, Hyde and Bulson; chorus, "Moonlight and Music," Ciro Plauti; reading, "Light From Over the Range," Henderson, Miss Ethel Hinton; duet, selected, Mrs. Duncan, Mrs. Hanson; chorus, "Spring Song," Ciro Plauti; ladies' double quartet, "Lullaby," Hawley; violin solo, (a) "Ungarische Ländle," Joachim Brahms, (b) "Melody in E," Rubenstein, (c) "Gypsy Airs," Toscani, Mr. Booth; chorus, "And the Glory," Handel; solo, (a) "Dear Love," Chadwick, (b) "Dinner and the Rose," Horrocks, Mrs. Leahy; reading, "The Heart of a Bootblack," A. E. Hinton, Miss Ethel Hinton; chorus, "Hallelujah Chorus," Handel.

The man-hunters are each nine months old and cost the city \$300. The amount of the appropriation made by the city council after the murder of Miss Martha B. Blackstone and the introduction here of King Ki and Mose to trall her slayer.

The pups stand about two feet high and weigh 75 pounds each and are the offspring of the noted sire, King Kroft.

The hounds are to be thoroughly broken to man-hunting by an expert trainer, although as they are natural trailers they will not require much handling, save getting them under control and giving them the necessary experience.

TO AID POLICE BLOODHOUNDS PURCHASED FOR SPRINGFIELD DEPT.

SPRINGFIELD, April 28.—The department of public parks received by express yesterday three thoroughbred English bloodhounds from kennels in Danbury, Conn., which will be kept to assist the police department in running criminals to earth.

The man-hunters are each nine months old and cost the city \$300. The amount of the appropriation made by the city council after the murder of Miss Martha B. Blackstone and the introduction here of King Ki and Mose to trall her slayer.

The pups stand about two feet high and weigh 75 pounds each and are the offspring of the noted sire, King Kroft. LOWELL OPERA HOUSE

After a lengthy period of picture shows Manager Ward of the Opera House last evening presented a "real" play to the Lowell public and the latter responded by attending in numbers that crowded the house, while the consensus of opinion was expressed as follows:

"What a relief to be able to see a first class play."

And in "The White Sister," they did

see a first class play, one of the finest of recent times and faultlessly presented by one of the strongest aggregations of players ever seen in one cast. Whoever selected the players had consummate knowledge of the eternal fitness of things for the character of the play is such that no artist could do justice to the principal roles and where on the American stage today can one find the superiors of Viola Allen and James O'Neill? The play is adapted from the celebrated story of the late E. Marion Crawford, whose high place in letters is known to the entire world. In adapting the play a radical departure has been made from the book, however, to suit the requirements of the stage, and a few of the strong characters of the book do not have a place in the drama, notably the superior of the convent. Then the play is a tragedy as Giovanni, the principal male character, dies in the closing scene whereas the book had rather a peculiar ending leaving the reader to infer the outcome. He who has seen the play and has not read the book should do so without fail, while he who has read the book would go a long distance to see the play. Whether last evening's production was a disappointment or not to those who had read the book the fact remains that it was one of the most excellent dramatic offerings presented in Lowell in a long time and Manager Ward is to be congratulated for having brought it here.

In the character of Sister Giovanni, "The White Sister," Miss Allen portrayed a role in which she of all other actresses has excelled. It is a character that would test the art of the best of emotional actresses. It is emotional but behind a subdued, spiritual exterior and could easily be marred by one who failed to completely understand and appreciate its unusual requirements. In every detail was Miss Allen thoroughly appreciative of the requirements of the exacting role and she gave it a finished interpretation. It is always a pleasure to see James O'Neill, dear old Monte Cristo, may he continue to retain his rare power ad maturis annos. Mr. O'Neill makes the best stage priest or prelate of any actor we have ever witnessed and in the character of the cardinal he was thoroughly at home. William Farnam as the captain was thoroughly satisfactory, likewise Mr. Richie Ling as Lieutenant Basil, Miss Minnie Gale as the countess and Fanny Addison Pitt in a minor role. The play was adequately staged, the scene change in the second act being particularly impressive.

HAVANA

For two seasons past James T. Powers has been amusing large audiences at the Casino theatre, New York, in the London musical success "Havana." Mr. Powers in "Havana" with the original cast and production will come to the Opera House tonight. That "Havana" has been a genuine success is evident enough in the fact of its long stay in New York and the reports which have come from players who have seen it during that time.

The American stage has no more accomplished comedian than James T. Powers, in fact he is almost alone in the field. He is fitted for it by his build and his voice and practice has developed those comical possibilities to the utmost. In "Havana," Mr. Powers plays the part of a sailor man and with such irresistible comedy that he keeps the audience in gales of laughter during the entire time he is on the stage. This sailor man is named Nix. Seven years prior to the opening of the play he visited Havana and wedded a fair Cuban girl whom he does not remember for he was taken aboard his vessel by his mates and not allowed to return. In fear and trembling he comes on the scene afraid every moment that his wife will get him. This timorous leads some revolutionists to suppose that he is one of them and he is dragged into their councils. A police raid leads to his arrest as the leader of the movement and he is led out to the slaughter and only saved by the timely arrival of his wife who declares him legally dead as he has been absent seven years and so they may not shoot him. Thus all ends happily. As the said little sailor man Mr. Powers is said to have the best parts of his whole career.

The Messrs. Shubert under whose direction Mr. Powers is appearing have staged "Havana" magnificently and have surrounded their star with a splendid company numbering about one hundred players. The original cast will be seen here and besides Mr. Powers includes Edith Decker, Ernest Lambert, Percy Aunes, Harold Vizard, Suzanne Willis, Joseph Phillips, Chas. Prince, William Phillips, Julie Mills, Ernest Hale, Geraldine Malone, Marie Sartoris, Donald Archer and others. There is a big chorus of typical Casino beauties who are exquisitely gowned.

Musically "Havana" is said to be well above the average musical play. The score was composed by Leslie Stuart and one of the numbers in particular, "Hello People, People Hello," sung by an octette of little girls, has made a tremendous hit. There are some twenty musical numbers in all and they are praised for their melodious quality. The original book of "Havana" was written by George Grossmith, Jr. and Graham Hill, but it was revised for America by Mr. Powers. The lyrics are by Adrienne Ross and George Arthurs. The piece was staged by Ned Wayburn. From this distance "Havana" looks like a sure winner.

PRIMROSE MINSTRELS

Real old-time dark acts are almost as scarce as hen's teeth in these days of racism antecedents on the stage, and for that very reason the interesting specialty done on those lines by Gov. Bowen, one of the many comedians on the Primrose minstrels, is all the more appreciated. Gov. Bowen occupies a unique position on the modern minstrel stage, inasmuch as his act stands entirely alone in nearly every particular: It is new, absolutely so, and still suggests much of the style of aged negro impersonation so popular while minstrelsy was yet in its infancy.

A special added attraction for the engagements of the large New England outfit is George Wilson of the famous Barlow, Wilson, Primrose & West. This is the first time that Primrose and Wilson have appeared together in nearly twenty years. These two great artists need no introduction to theatregoers from ocean to ocean and from the Great Lakes to the Gulf of Mexico. Now won't it look good to you to see George Wilson on one hand and George Primrose on the other? It should pack the theatre from "pit to gallery." The date here is April 29.

UNCLE TOM

That wily, provoking fellow, "Marks," the lawyer, and the equally treasurable "Topsy" are to be seen and heard again Saturday afternoon and evening April 30, upon which day and date Stetson's spectacular "Uncle Tom's Cabin" will be presented at the Opera house.

ACADEMY OF MUSIC

An extra fine bill will be presented at the Academy of Music today. The vaudeville feature is May, Duran & Co.

April Shopping Inducements

FOR FRIDAY AND SATURDAY

Beginning with each fiscal year we figure on a legitimate business increase for the ensuing period, and then watch each and every month closely for satisfactory results.

February and March contributed more than their proportionate share to the increase slated for 1910, but April's showing, while good, is not so favorable. We have therefore decided upon a speedy merchandise movement Friday and Saturday, April 29-30, and all who know values should take advantage of the special price inducements as quoted below:

Remember, these prices are for Friday and Saturday. It is only done with the intention of turning April into a big winner.

Gloves

THEATRE VOYONS

Biblical plays are apt to be less thrilling than the general run, but today the Theatre Voyons shows one, "Judith," that is not only taken directly from sacred history and thus of great interest, but one that is as romantic and thrilling as any story of the present day writers. Judith is a Hebrew widow, who to save her native city from capture goes into the camp of the besieging army and there alone kills its general. This she was commanded to do by a vision and in accordance with the prophecy of the high priest. It is a well acted and finely staged picture and should be seen by everyone who makes a study of biblical history. There are several other pictures of great interest in the bill, including a western subject and a very funny comedy.

STAR THEATRE

Today at the Star theatre an all new program, consisting of talking pictures, motion pictures and illustrated songs, was produced, "That Italian Rag," a popular character song, made a decided hit. The talking picture is like a play, thus you have a repertoire and picture show combined, as it takes a capable company of actors to present it. Women and children are tendered special attention in this thoroughly clean and well ventilated theatre. The admission of five cents includes a seat.

PRIMROSE MINSTRELS

Real old-time dark acts are almost as scarce as hen's teeth in these days of racism antecedents on the stage, and for that very reason the interesting specialty done on those lines by Gov. Bowen, one of the many comedians on the Primrose minst

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun
for the year 1900 was**16,828**

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilote, pressman, of The Sun, before me, January 1, 1910. J. JOSEPH HENNESSY, Notary Public.

This is by far the largest average circulation of any newspaper in Lowell.

EXPERIMENTAL OPERATIONS BY DOCTORS.

The report coming from an orphan asylum in Philadelphia to the effect that doctors used the children as "human material" for experimental operations, the results of which were doubtful, is really astounding.

It is understood that the operations consisted in new and untried tests for tuberculosis, some of which had serious results. The pretext was sufficiently plausible to deceive the unprofessional.

If vivisection of the lower animals for scientific purposes be prohibited, surely the lives of little children should be protected from experimentation that may ruin their sight, their mental faculties or physical well-being.

Once upon a time it is reported that doctors took upon themselves the responsibility of performing certain unnecessary operations upon children in this city. Fortunately the practice was stopped as soon as discovered and will not be repeated. There is enough of this experimentation for medical research in ordinary practice in some hospitals and state institutions where students get their practical knowledge, it may be, at the expense of many lives. The nursery and orphan asylum should be spared the infliction.

THE ABOLITION OF THE TRAINING SCHOOL.

The abolition of the Training school at a time when there was no agitation against the school has caused a good deal of surprise. Of late, however, there has been no great sentiment in favor of the Training school on account of the manner in which it has been conducted. The principal has been absent a large portion of the time, and reports from the parents of the children gave some ground for the belief that the progress of the pupils was greatly retarded by the frequent changes in teachers made necessary by the training of young teachers. But one thing that can be said in favor of the school is, that the young teachers were admitted on their merit.

Now that this system has been changed, the question arises, are we to revert to the old system of securing positions in the schools by political pull or by payment of a sum of money?

Instead of placing the responsibility and power upon the superintendent both are delegated to a board of eight grammar masters and the principal of the High school. This board of supervisors is to pass upon the merits of the teachers who seek positions and the school board, so far as appears, will have to accept the recommendations of this supervisory board.

Why discriminate against the other principals? It is noticeable that on that board is Principal Barry of the new Washington school, while three of the oldest principals in the city in point of service have been ignored. What is the motive of this? Is it because of any personal objection to the principals thus discriminated against?

If these principals are not in every way competent to perform all the duties assigned to any principal, supervisory or otherwise, why retain them at all? If on the other hand their competency cannot be questioned why discriminate against them?

If the young teachers appointed for a trial period were allowed to rotte among the grammar schools so that each master could report upon their work then the school board might have some reliable data to guide it in the selection of teachers if indeed it be the aim of the board to select teachers on the ground of merit alone.

If the duties of superintendent are to be transferred to the grammar masters then why retain the superintendent? Why pay him \$3000 a year for doing nothing of any importance? Better abolish that office also if the new arrangement is to make it needless.

In outlining his plan of improving the schools, Mr. Simpson of the school board made the following statement:

"Whatever plan is consummated, the grammar master must, in the last analysis, be the judge of the fitness of candidates for the positions in his schools and be responsible for their selection. This is fundamental, and cannot be changed by any condition. Assuming then, that each master should be held responsible by the school board for the character and the intellectual and professional capacity of his teachers, a system must be devised which shall bring it within the power of the master, acting under competent advice, to secure suitable teachers for his school."

How far will the principals be responsible? What will happen the supervisory board individually or collectively if any member is instrumental in securing the appointment of incompetent teachers?

If the principals secure the appointment of their relatives and friends, are they likely to complain if these appointees fail to come up to the standard? Then if the principals do wrong in the schools they will have nothing to fear in the line of complaints from the subordinates whom they selected. Thus the board is trying to establish a system that will run itself wholly regardless of results.

Had the school board adopted a system under which the new teachers would be selected on recommendation of the superintendent on the rating of their work by the grammar masters without exception or discrimination, we do not believe there would be any serious criticism of the system. But to eliminate from this new duty certain principals and to place in the hands of the other principals the power and responsibility that properly belong to the superintendent, is too radical a departure to meet public approval. Furthermore, it is subversive of the fundamental principle of placing power and responsibility in one executive head and holding that official strictly to account for conditions. The change adopted by the school board will not work, and will never meet public favor because it does not appear to have been made for the best interests of the schools.

Perhaps the most absurd arrangement of all is that before a teacher can be admitted even to an examination for admission to the Lowell schools, she must have served a year somewhere else, say in Dracut, Tyngsboro, Methuen, Lawrence, Bingville or Kalamazoo. The effect of that rule will be to bar out all Lowell teachers who do not start elsewhere, while giving preference to outsiders who may not be nearly so good.

We may as well be enclined with the school board and inform these enlightened gentlemen in advance that the people of Lowell will not submit to any such imposition.

SEEN AND HEARD

When man thinks that he is the only man on earth who knows how to make a salad, it's no earthly use to argue with him.

The man who makes up his mind always to return good for evil will have to lay in an enormous stock of good.

What if the price of bacon does continue to go up? Broiled live lobster is a good deal better, anyhow.

Money in the bank gives one an easy, independent feeling that comparatively few people have.

THE TWO ROSES.

The first rose is sweet,
But no sweater, dear,
Than the last rose that blooms
At the end of the year.I often have watched the first rose unfold,
A story of beauty and sweetness it told,
Like youth in its morn on a fair maid's
en's brow;Or the sweetness of love that is sealed
With a vow.It smiled in the sunshine, gladdened
the earth,
Gave joy to the world that had given
it birth.Laughed with the many, shed tears
with the few,
And lavished its sweetness as others
will do.But time travels fast, and now it grows
old,
Repeats the same story that has often
been told.While youth ever budding and glowing
in bloom,
Keeps basking in sunshine, forgetting
its doom.The last rose that grew was full of
delight,
Spread its leaves to the morning and
hallowed the night,Heard its praise sung by many, neg-
lected by none.And smiled like its sister and others
have done.The first and the last roses come and
they go,Have springtime and summer and win-
try snow;They live and they die, and leave the
bare stemOf memory behind, to remind us of
them.The first rose is sweet,
But no sweater, dear,
Than the last rose that blooms
At the end of the year.

cats balled so that they won't be able to catch the birds. Probably the rats and mice do, too.

Man, of course, ought to be willing that woman should have her say. She's bound to, anyway.

Sometimes you meet a woman who says frankly that she would rather be a man. Did you ever meet a man who was willing to admit that he would rather be a woman?

What is the proper thing to say to the nervous man who starts when he meets you on the street, and says it is a fine day, isn't it, when it isn't?

Remember the last professional min-
strel show in Lowell was a disappoint-
ment. Moral: See the Bachelors show,
Friday, Associate hall.

ANNUAL REPORT

OF STATE CHARITIES HAS SOME
INTERESTING FIGURESIn the annual report of the state
board of charities, just published, it is
shown that 913,401 persons were bene-
ficiaries of charitable corporationswhose property is exempt from taxation
for the year 1909.Of this number 171,372 were aided
free, the remaining 742,028 paying in
whole or part for the service rendered.In addition to the individual beneficia-
ries are 1486 families and 30 corpora-
tions.A very considerable portion of the
report is devoted to returns from the
189 city and town almshouses.The largest number in a single alm-
house was in that on Long Island,
Boston, where there were 875. Next
after that came Lowell with 347, Fall
River with 262 and Lawrence with 182.In 20 almshouses there were found 123
consumptive cases, about two-thirds of
them being in Boston.The annual cost of all paupers, state
and town, in Massachusetts, has in-
creased from \$2,338,578, in 1859, to
\$5,895,138, in 1909, or from \$1.06 to
\$1.93.The board recommends that all pri-
vate lying-in hospitals shall be made
subject to license by it, as are infant
boarding houses, and that all other
private hospitals and all private san-
itariums, etc., be made subject to licen-
sure by the state board of health.The annual report of the trustees of
the state infirmary, formerly known as
the state hospital, at Towsbury, for
the year ending Nov. 30 last, is just
issued. It shows the total number of
admissions for the year to have been
5534, a decrease of \$34 from the total
of the year previous.The total of persons cared for, 7619,
was 462 less than the previous year.
More than 84 per cent of those treated
were hospital patients.Of the total, 4186 were women and
1348 were men, and 5556 were from
Boston. The next largest number, 294,
were from Lowell. As to nativity of
admissions, Ireland furnished 1522,
Massachusetts 1367, British provinces
572, England 268, New York 205, Rus-
sia 174, and Italy 164.

The report says:

Under chapter 101 of the Acts of
1909, which was appropriated the sum of
\$39,000 for the maintenance of this
institution. During the year there was
expended for current maintenance\$292,130.68, of which \$116,281.16 was for
salaries, wages and labor, and \$275,-
849.53 was for general expenses. This
gives a gross per capita cost of \$3.64
per week, or 26 cents more than for the
period last reported.In the department for the insane, the
daily average number of patients was
631, and the number of admissions
during the year, 226. There were 96
deaths. Eight nurses graduated from
the training school.

The report says:

neither education nor legislation. It is
regeneration. When we come to get
the life of the Everlasting under the
auspices of the democracy, it will work outthe best of all things. Greek and
Roman forgot to do, there was

no English nation, no German empire.

They forgot to restore to the plain
people their prerogative. When the
plain people's rights were recognized
here, and gradually expanded until
they reached their present denomina-
tion, other powers began to diminish
and our power began to grow. When
you entrust the Commonwealth to all
of its people, and take the risks of
democracy, with advancing intelligence,
you have gained the prim. And so
the great need today is not so much
a strong man in the White House as a
strong man in your own house.Instead of trying to get a great man
in the state house, go home and get a
backbone instead of a wishbone, yourself.

The first signs of awakening<br

LOWELL OUTCLASSED

McGovern's Brockton Team Played a Snappy Game

Stankard Did Some Sensational Batting and Made a Star Fielding Play—Visitors Landed Hard on Moore

Terra Cotta Terry McGovern, the former Lowell catcher, with his Brockton Braves including Little "Tod" Shannon, just as kippy as when he played with Lowell, came here yesterday and won their first game of the season defeating Lowell by a score of 7 to 1.

Tommy Gilroy was the man who did it for the Lowell team couldn't do anything with him. Moore, who pitched for Lowell, was relieved after five innings, for they got to him good, and Buckles who took his place was shy on control though showing good speed and curves.

The Brocktons played an excellent game and well earned their victory. They showed class not only at the bat but on the bases and in the field. On the bases they worked two pretty squeeze plays.

The star of the game was big Tom Stankard, the old Holy Cross player, who was in right field for the visitors. Stankard made a home run with the bases, hitting the ball to the point where the left and centre field fences meet, one of the longest hits ever made on the grounds. Later he made a three bagger that might have been a homer had he not stopped at the third station. In the field he made one hand catch over his head that robbed Jones of a three bagger. Hendrickson was also strong at the bat, getting a single, a double and a three bagger, all of Moore.

With the exception of Fitzpatrick and Boulties, Lowell didn't play as snappy a game as usual. Fitzpatrick made a one-hand catch which tied with that of Stankard.

Umpire Connolly made his first appearance at Spalding park this season and made a few mistakes that had the fans going.

First Inning

The visitors broke the ice in the first inning and scored one run, while the home team failed to send a man across the plate. Hendrickson hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Fitzpatrick sent a grounder to Shannon and was out at first. Boulties fanned the breezes and Fluharty fled to Moore and was third out.

Score—Brockton 1, Lowell 0.

Second Inning

There was nothing doing in the second inning. Shannon started the inning off by flying to Campbell and then Dulin drew a base on balls. Orcutt hit to Boulties who put Dulin out at second and threw to first for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Fitzpatrick sent a grounder to Shannon and was out at first. Boulties fanned the breezes and Fluharty fled to Moore and was third out.

Score—Brockton 1, Lowell 0.

Third Inning

Brockton got another run in the third inning. Lavigne hit to Campbell and the latter threw over Stone's head and the ball went to the first base bleachers, while Lavigne went around to third. Gilroy hit to Flitz and never reached first. Hendrickson singled over second base scoring Lavigne. Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

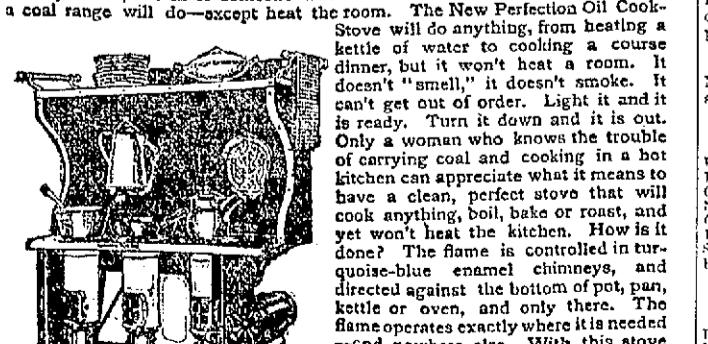

In the latter half of the inning Campbell hit to Orcutt and was out at first. Huston foul fled to McGovern, who made a pretty running catch.

AN UP-TO-DATE STOVE

Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the

New Perfection WICKER-FRAME Oil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room.

Careful Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

Standard Oil Company
(Incorporated)

Jones fled to Stankard in deep right-field.

Score—Brockton 7, Lowell 1.

Ninth Inning

In the ninth inning Orcutt struck out. Lavigne hit to Campbell, who fumbled, and the runner got on first. Gilroy hit to Fitzpatrick, forcing Lavigne out at second. Hendrickson got a base on balls. McLane hit to left field for a single, but Gilroy in trying to score was nailed at the plate by Moher.

Campbell got a single to right field. Huston hit to Shannon, forcing Campbell out at second. Moher went to bat for Buckles and struck out. Fitzpatrick foul fled to Lavigne.

Moore singled over second, but Flitz struck out.

Score—Brockton 2, Lowell 0.

Fourth Inning

Stankard fled to Magee. Shannon hit to Flitz and never reached first. Dulin singled to centre field but while he was trying to steal second he was thrown out.

Boulties struck out for the second time and Fluharty hit to Shannon and was out at first. Magee singled to left field while Stone fled to Shannon.

Score—Brockton 2, Lowell 0.

Fifth Inning

In the fifth inning Orcutt fled to Fluharty, the latter making a beautiful one hand running catch. Lavigne fled to Campbell and Gilroy hit to Fitzpatrick and was out at first.

Lowell scored a run in the fifth inning. Jones, the first man up, drew a base on balls. He went to second on Campbell's sacrifice. McLane bunted to Moore, who fumbled, and Hendrickson went to third. McGovern hit to Orcutt and Jones beat the ball to the plate for a run. Moore and Huston tried to work a double steal. Huston being nailed at the plate, Fitzpatrick was third out on a foul by Gilroy.

Score—Brockton 2, Lowell 1.

Sixth Inning

The visitors slammed Moore to beat the band in the sixth inning and scored three runs. Hendrickson sent the ball to right field for a clean two-bagger, it being his third hit. McLane bunted to Moore, who fumbled, and Hendrickson went to third. McGovern hit to Orcutt and Jones beat the ball to the plate for a run. Moore and Huston tried to work a double steal. Huston being nailed at the plate, Fitzpatrick was third out on a foul by Gilroy.

Score—Brockton 2, Lowell 1.

Seventh Inning

The visitors slammed Moore to beat the band in the seventh inning and scored three runs. Hendrickson sent the ball to right field for a clean two-bagger, it being his third hit. McLane bunted to Moore, who fumbled, and Hendrickson went to third. McGovern hit to Orcutt and Jones beat the ball to the plate for a run. Moore and Huston tried to work a double steal. Huston being nailed at the plate, Fitzpatrick was third out on a foul by Gilroy.

Score—Brockton 5, Lowell 1.

Seventh Inning

In the seventh inning Orcutt got hit by a pitched ball and walked to first. Lavigne followed with a base on balls. Buckles then made a wild pitch and the men on the bases were advanced. Gilroy hit to Fitzpatrick and was out at first. Hendrickson fled to Fitzpatrick and the latter threw the ball to Campbell, who got Orcutt for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Fitzpatrick sent a grounder to Shannon and was out at first. Boulties fanned the breezes and Fluharty fled to Moore and was third out.

Score—Brockton 5, Lowell 1.

Eighth Inning

Brockton scored two more runs in the eighth inning. McLane got a single and McGovern went out on strikes. Stankard hit to the right field fence for a three bagger and McLane came home. Stankard and Shannon came home. and Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Campbell hit to Orcutt and was out at first. Huston foul fled to McGovern, who made a pretty running catch.

Score—Brockton 5, Lowell 1.

Ninth Inning

The visitors slammed Moore to beat the band in the ninth inning and scored three runs. Hendrickson sent the ball to right field for a clean two-bagger, it being his third hit. McLane bunted to Moore, who fumbled, and Hendrickson went to third. McGovern hit to Orcutt and Jones beat the ball to the plate for a run. Moore and Huston tried to work a double steal. Huston being nailed at the plate, Fitzpatrick was third out on a foul by Gilroy.

Score—Brockton 8, Lowell 1.

Tenth Inning

In the tenth inning Jones hit to Campbell and the latter threw over Stone's head and the ball went to the first base bleachers, while Lavigne went around to third. Gilroy hit to Flitz and never reached first. Hendrickson singled over second base scoring Lavigne. Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Campbell hit to Orcutt and was out at first. Huston foul fled to McGovern, who made a pretty running catch.

Score—Brockton 8, Lowell 1.

Eleventh Inning

In the eleventh inning Jones hit to Campbell and the latter threw over Stone's head and the ball went to the first base bleachers, while Lavigne went around to third. Gilroy hit to Flitz and never reached first. Hendrickson singled over second base scoring Lavigne. Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Campbell hit to Orcutt and was out at first. Huston foul fled to McGovern, who made a pretty running catch.

Score—Brockton 8, Lowell 1.

Twelfth Inning

In the twelfth inning Jones hit to Campbell and the latter threw over Stone's head and the ball went to the first base bleachers, while Lavigne went around to third. Gilroy hit to Flitz and never reached first. Hendrickson singled over second base scoring Lavigne. Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Campbell hit to Orcutt and was out at first. Huston foul fled to McGovern, who made a pretty running catch.

Score—Brockton 8, Lowell 1.

Thirteenth Inning

In the thirteenth inning Jones hit to Campbell and the latter threw over Stone's head and the ball went to the first base bleachers, while Lavigne went around to third. Gilroy hit to Flitz and never reached first. Hendrickson singled over second base scoring Lavigne. Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

In Lowell's half Jones hit to Gilroy and was out at first. Campbell hit the ball over Fluharty's head for a three bagger. McLane hit to Boulties and died at first. McGovern bunted and was out at first but Hendrickson scored. Stankard hit to Moore and failed to reach first.

In the latter half of the inning Campbell hit to Orcutt and was out at first. Huston foul fled to McGovern, who made a pretty running catch.

Score—Brockton 8, Lowell 1.

Fourteenth Inning

In the fourteenth inning Jones hit to Campbell and the latter threw over Stone's head and the ball went to the first base bleachers, while Lavigne went around to third. Gilroy hit to Flitz and never reached first. Hendrickson singled over second base scoring Lavigne. Hendrickson then stole second. McLane drew a base on balls and McGovern hit to Flitz, who threw to Boulties, who put McLane out and then the ball was sent to first for a double play.

SUPT. WHITCOMB

Discusses the Question of Industrial Education

In a report to the school committee, Supt. Whitcomb has some very interesting things to say about school work especially with reference to industrial education. The report, in part, is as follows:

I did not attend the meeting of the school superintendents of the nation last February, a fact for which I owe the school committee and the public an apology, but I have been doing a little visiting near home of late, and have seen some things which have interested me much. In the hope that they will also be of some interest to you I report.

The superintendents of Essex county have what they call a North Shore association, with meetings monthly. This year they are studying industrial education at first hand, as far as may be, and as their first meeting was at Lawrence they were kind enough to invite me to join them. My company proving endurable on this occasion, they have continued to count me in ever since, to my great enjoyment.

Most cities of the country have had manual training, such as we have in the high school, in their grammar grades for some time. Its value there is generally conceded, and it have restrained from pushing it for Lowell only on account of the expense. More recently many cities have considered the opening of industrial or vocational schools, that is schools which teach trade or the principles and practice which underlie trades, and a few have actually opened such schools. The experiment is one which deserves a close and sympathetic study.

The state offers to bear half the expense to any city which will open such a school. Lawrence has accepted this offer and so far is the only city in the state to do so. The result is a school, both day and evening, in which sewing and cooking are taught to girls, and mechanical and textile work to boys. The school committee has nothing to do with the school, which is managed

by trustees appointed by the mayor, the state having thus far failed to assume the control to which the law entitles it.

Of pupils there has been no lack, especially in evening schools where there was last winter a registration of 900 men and boys and 500 women and girls. In the day school are 80 boys and 47 girls, with six men and two women teachers. The school has an equipment of donated machinery valued at \$50,000. Its annual cost is \$12,000.

In Beverly industrial opportunities have been offered to fifty boys through a half time arrangement with the United Shoe Machinery company of that city. One-half the boys work in the shop a week at a time under regular shop conditions, making a merchantable product for which they are paid half value. The other half of the value of the product is supposed to remunerate the company for the room occupied, the power, cost of material, cost of supervision, teaching, etc., and if it does more than this the company promises to credit the school with the balance. Work began last August, and so far the company has reported no profit, but as the boys increase in skill (they can stay four years if they will) it is quite likely that profits will increase.

At the end of a week the boys return to school for a week, their place being taken by the other half of their mates, and so on alternately. The school is planned to teach the things the boys need to learn for best results in the shop and in after life as mechanics. So far the experiment seems to work well. Some boys quit the job early, but their places have all been taken by others on a waiting list, a proof that the scheme is popular. Last week two of the boys made between \$7 and \$8, really earning twice those amounts, pretty good work for boys on the first year of a half time apprenticeship. Best of all some boys

who were not doing at all well in school have improved greatly in manners, morals, and efficiency.

In Lynn the General Electric company, a large firm employing, I believe, some ten thousand workmen, has taken the matter wholly into its own hands, offering both education and training. Boys are paid eight cents an hour (ten if high school boys) for the first half year, ten cents the second half, twelve the second year, fourteen the third, and sixteen and one-half the fourth, for a four year course, with a further bonus of \$100 if the course is completed. One-third the time is passed in a schoolroom in the same building in which the boys work, and their pay is the same for time in school as for time at the bench. The company provides the boys with its very latest and best machinery, promises them its best mechanics as instructors, and the best men available for school-room teachers. At the end of the four years the boy is sure to be a superior all round mechanician. The company will be glad to guarantee him employment if he will stay with it, as is the case with about two-thirds of those who graduate. Any boy fourteen years old and able to read and write is eligible, though more education and greater maturity is desirable. Between one and two hundred boys are now taking this course, but a hundred more would be welcomed.

Newton, as befits one of the wealthiest and most progressive cities in the country, asks no help from shape either half time or full time, but tackles the job itself on a most liberal scale.

One-thousand citizens united in a gift of fifteen acres of land for a schoolhouse and athletic field within three minutes of the classical high school. On this lot the city has built a technical high school house costing \$15,000. Some equipment is not yet in, and, land included, the total cost will be about a half million. In this house the girls are getting the domestic science course which I covet for Lowell. This is their first year, yet they were able to cook and serve a lunch to some fifty of us, which was well worth the 75 cents they charged us. The school has three courses for boys, a technology course, a general technical course something like our manual training course, and an extra technical course with more hours in the day, more days in the week, and eleven months in the year, which will practically be a trade course, that is it will fit for a trade. Despite the fact that Newton is almost exclusively a residence city, more than one-third of the boys are taking this course, the technology course being the only other one to attract as many students.

The school just mentioned is, of course, for students of high school grade, but for the boy who can't get the high school, for any boy, indeed, who can read and write and is fourteen years of age, the city has another school which interested me still more. Funds for it are supplied by some generous giver whose name is not announced. The city gives the use of an old school house, and in this boys are working at carpentry, wood turning and carving, pattern making and casting, forge work and machine shop practice with a fair mixture of academic work suited to their condition. The school has been in operation but little more than a year, and results are not yet worked out to a finish. The plan is, however, to help the boy to find himself, as the saying is, that is to find out what he can do best, and then to help him specialize along the line of his best outlook. In the first year, or year and a half, he will be well tested, and after he has "struck his gait" he will be helped to go on as is for his best good without regard to a general course. The school is expensive. Much of the work is individual. The school started with 15 boys, and a teacher at \$1500. A half year later as many more entered, for whom a \$1200 teacher was provided. At the end of the third half as many more came, with another \$1200 teacher. Add equipment and supplies, and we have a cost per pupil far greater than anything we have in Lowell, or than we can, perhaps, afford, and yet this is just the thing I should best like to see tried here.

Boston has a technical high school for boys, a domestic science high school for girls, and another school for girls unable to get into the high school. This latter school, which has a one year course, was first provided by private help but has proved so successful and useful that it has recently been assumed by the city. Not wish-

SICK CHILDREN; WORMS THE CAUSE

Parents Do Not Know It.

Three-fourths of the sickness of childhood come from worms. Thousands of children suffer from worms and their parents do not know it.

Watch carefully for any symptoms like these: sunken eyes, pallid nose and lips, dim eyes, itching nose, bleat, paleness, checks of uneven color, swollen lips, bluish pallor around the mouth, bad breath, choking, swallowing, starting or croaking in sleep, hacking cough, constant thirst, swollen abdomen, bed-wetting, milky urine, cross and peevish disposition, greedy appetite or bone at all, vomiting.

Knowing that the child has worms you can kill it at once yourself with a reliable vegetable mixture called Fessenden's Worm Expeller. The price of it is only 25 cents. You will forget that small cost for the sake of your child.

Remember the name—Fessenden's Worm Expeller. In some towns every druggist has it for sale. In every town in the state you will find it at some drug store.

Start giving it to the child at once according to the simple directions printed on the package.

You ought to drop whatever you are doing and go and get some at once.

GENERAL MILES

NOT SO SERIOUSLY INJURED AS AT FIRST THOUGHT

WASHINGTON, April 28.—Two fractured ribs, a slight scalp wound and bodily bruises comprise the sum of the injuries to Lieut. General Nelson Miles, retired, who was thrown from his horse on Potomac drive late yesterday afternoon. Apprehensions of more serious injuries were entertained at first but after a night's rest which his surgeon pronounced very beneficial the soldier's injuries proved not so extensive as was at first thought.

Gen. Miles was taken to his apartment at his own request. He declined to be taken to the military hospital at Fort Myer. He wanted to continue his ride after the fall but was unable to do so.

bank, Boston, was yesterday appointed a special police officer.

President Burrage is now invested with all the powers of a special officer and may, without offending the other members of the local police force wear his police badge pinned on his coat whenever he wishes.

Friends of Mr. Burrage indulged in a deal of good natured banter yesterday afternoon when they heard that he had been made a special officer. And it seems that there is some more joshing to go for Mr. Burrage when he appears on the links at the Brae-Burn Country Club Saturday afternoon.

It is said that the reason for Mr. Burrage's application for the office was that he wanted to keep the caddy boys orderly while they were on the links. "It's a pretty neat wager," said one of the Brae-Burn members, "that Mr. Burrage isn't looking for any extra pin money, for it is hardly probable that he could very appreciably augment his

\$50,000 a year salary, that he receives as bank president, by fees that he would receive if he 'pinched' anyone.

"Just imagine Mr. Burrage threatening to arrest a caddy who should so far forget himself as to strike when Constable Burrage sliced or pulled the little pea on his drive from the tee in front of the club house."

President Burrage resides at 227 Temple street, West Newton, and is a member of many of the prominent social organizations of this city. For many years he has been an officer of the Brae-Burn Country Club. The appointment was made yesterday morning by Chief of Police Fred M. Mitchell and was confirmed by Major Hartfield.

A Combination Offer

on Edison 'Amberol Records and the attachment for playing them on your

Edison Phonograph

The cost of an Amherol attachment for an Edison Phonograph of the Standard type is \$5.00.

The cost of ten Amherol (four-minute) Records, at 50 cents each, is \$5.00. This makes a total of \$10.00.

For a limited time any Edison dealer is authorized to put an Amherol Attachment on a Standard Phonograph and furnish ten specially made Amherol Records, all for \$6.00—a clean saving of \$4.00. For all other types of Edison Phonographs the prices are proportionate.

This offer, which practically gives you ten Amherol Records free, is made to put these new, long-playing Edison Records within reach of all Phonograph owners, making their Phonographs available for playing both the Standard and the Amherol Records.

Go to the nearest Edison Dealer

or write us for all the details of this liberal offer. Hear these ten special Amherol Records, which cannot be had in any other way; see the attachment in operation, changing from two-minute to four-minute Records and back again.

Then you will want to bring your Phonograph up to date and enjoy all the entertainment now offered by the great Edison stars.

Edison Phonographs, \$12.50 to \$20.00

Edison Standard Records, 50¢

Edison Amherol Records (play twice as long), 50¢

Edison Grand Opera Records, 75¢ to \$1.00

CITY SOLICITOR

Says That Parochial Residences Should be Taxed

City Solicitor Duncan gives as his opinion that the parsonages and parochial residences in this city are not exempt from taxation. This opinion he has given. Couplington Alfred T. Howe and it reads as follows:

Office of City Solicitor,
Lowell, Mass.
Councilman Alfred T. Howe, Lowell,
Mass.

Dear Sir—I have your request for an opinion as to whether the parochial residences belonging to the various religious denominations in the city of Lowell are exempt from taxation.

An examination of the authorities shows pretty conclusively that they are not. The whole question is thoroughly discussed in the case of the Third Congregational Society of Springfield vs. the City of Springfield, Sept. 17 Mass. 406. In this case the court says: "It is a familiar principle that exemption from taxation can be allowed except upon its being fairly shown that it was intended by the terms of the statute."

The only statute under which property of religious societies is exempt is Rev. Laws, Ch. 12, Sec. 5, cl. 7, which reads: "Houses of religious worship owned by or held in trust for the use of any religious organization and the pews and furniture; but the exemption shall not extend to portions of such houses appropriated for purposes other than religious worship or

instruction."

This statute is practically a re-enactment of Pub. Stats. ch. 11, sec. 5, cl. 7, under which the above opinion was rendered.

The court further says "that it would aid in the support of public worship if the clergyman or other religious instructor could be provided with a dwelling is true, but the legislature has not undertaken to exempt the which would do this, but the house of religious worship only." When any portion of the land about the edifice is devoted to the erection of a dwelling house, as this is a peculiar purpose, it shows that so much at least of the territory is not appropriated as a part of the house of religious worship, or as necessarily incident thereto.

The legislature intended to limit the exemption to the houses of religious worship alone, or to the portions of an edifice appropriated therefor, and their pews and furniture."

From the above it can readily be seen that the law on this point is well established and will remain so in the absence of any change in the statute.

I am, therefore, of the opinion that the parsonages and parochial residences of the various religious denominations in this city are not exempt from taxation.

Very truly yours,

Wm. W. Duncan,
City Solicitor.

your service for so many years, and it is an added cause for congratulation that they are not wholly to be lost until the monetary system of the country has been brought to the highest degree of perfection that the commission which you are the head is capable of producing.

"With assurance of sincere personal regard and deep respect, very truly yours,

Aram J. Pothier, Governor.

A PLEASANT EVENING

Mrs. Annie M. Allen of Rogers street entertained the Yarney whist club last evening at her home and a delightful evening was passed in progressive whist, songs and recitations.

The whist playing showed some very expert records when the scores were announced. The gentlemen's first prize, a large Stein, was won by Mr. F. X. A. Hurlubus, and the second prize, a pencil cuff set, was won by Mr. D. J. O'Brien. The lady's first prize, a brooch pin, was awarded to Mrs. M. J. Allen of New York, and the second lady's prize, a vase, went to Mrs. M. J. Cahill. After the awarding of the prizes, the party adjourned to the dining room where a dainty luncheon was served after which three teams captained by Messrs. Cornelius Collins, Thomas F. Maguire and E. F. Slattery were organized for the game of archery. Mr. Cornelius Collins' team won in this contest for which a prize of a small barrel of candy was awarded.

The pleasant evening came to a close about midnight, all agreeing that they had an enjoyable time.

BRYAN CONFIRMS REPORT

LINCOLN, Neb., April 28.—After reading despatches announcing the betrothal of his daughter to Lieut. Reginald Alan Owen of the British army Col. Bryan said that the announcement was correct. Mr. Bryan said the wedding would occur at Fairview next Tuesday.

Mrs. Leavitt has been at the home of her parents for several months and the despatch from London was the first intimation of the marriage which has come to friends in this city.

PRES. NEEDHAM RESIGNS

WASHINGTON, April 28.—It was announced here this morning that C. W. Needham, president of the George Washington university, resigned yesterday.

POTHIER REGRETS

That Senator Aldrich is to Retire

PROVIDENCE, R. I., April 27, 1910.—Expressing regret at the announced decision of U. S. Senator Nelson W. Aldrich not to be a candidate for re-election in 1911, Gov. Aram J. Pothier yesterday sent a letter to the senior senator from Rhode Island, in reply to one which he recently received notifying him of the letter is as follows:

"Providence, R. I., April 27, 1910.
Hon. Nelson W. Aldrich, U. S. Senate,
Washington, D. C.

"My dear Senator: Your letter of the 17th instant informing me of your decision not to be a candidate for re-election to the U. S. senate in 1911 is at hand. I need hardly assure you that the course you have decided upon has occasioned keen regret among the representative body of Rhode Island citizens.

"While some of the marked prestige which Rhode Island has enjoyed at Washington because of your able execution of her commissions may, perhaps, seem to be missed after your retirement, she will surely derive the same measure of satisfaction as yourself in the knowledge that your successor will be a republican and that his efforts will be dedicated to the principles and policies of the party whose administration of affairs has given to our state such uniform prosperity and has brought to the republic a firmly established and universal honor and respect.

"The state and the country are to be congratulated upon having commanded

CHOIR FESTIVAL

To Help Out the Playgrounds Scheme

The College club in conjunction with a committee from the Women's club, is arranging for a novel entertainment to raise money for the employment of supervisors for the public playgrounds, such as Normal school girls of experience who are versed in handling children. The entertainment will consist of a church choir festival to take place on two evenings in some public hall or theatre. The entertainment will probably be on May 17 and 18.

Already the choirs of the Immaculate Conception, St. Patrick's and St. Peter's churches have agreed to contribute. The Methodist choirs will combine for the festival, likewise the Congregational and Universalist choirs.

Too much cannot be said or done in favor of the playground movement that is spreading itself like rays of sunshine throughout the country.

At the second annual playground congress of the Playground Association of America, one of the speakers said:

"We want play—simply play—for the children of our cities. Those who are fortunate enough to live in the country have in their own homes the playground. The orchard, the meadow, the swimming pool, the nearby brook, constitute the never-failing source for gratifying the appetites, the normal appetites of childhood in the country. And with that feeling akin to despair, we look upon the growing thousands teeming in the congested quarters of our cities with the slight opportunities of the roadway to take the place of the open country.

We do not think alone of them in their early years, but we look forward to the time when they come to play the parts of men and women in the world and we wonder what is to be the future. Is their experience of life merely to be that of the hard taskmaster, the struggle for bare existence? Is the growing feeling of discontent to be accentuated and increased because of abnormal deprivation?

We want playgrounds for children in order that we may conserve the health of our people. A great deal is being done in these days to protect us against the spread of disease. We are fighting with intelligence and new found zeal the great white plague, but the dread disease of tuberculosis must be successfully fought by developing stamina, physical strength through exercise in all the physical activities. We must nourish their strength in childhood. We do not want simply hospitals and pavilions and clinics giving instructions to those who are unfamiliar with necessary precaution. We want to save the health of our children so that we may nurture a strong, well favored community. That is the surest way to stamp out disease. If we were thinking of nothing but the preservation of health and the proper function of government in protecting against the unnecessary exposure of the people to infection and the threads of disease, we would make it one of our first objects to secure adequate playgrounds for children in the free air and give them opportunity of rescue from their over crowded abodes.

We want playgrounds in order that we may aid in the development of the sentiment of honor. I do not know of any better way to teach the boy to be honorable and straight than to give him a chance to play with his comrades. In the playground he learns it without any suggestion of rebellion against instruction and precept and preaching. He learns it because he does not want anybody else to cheat him and he is "down" on the boy that does not play fair. And in the long run, because he is "down" on the boy that does not play fair, he will establish standards of conduct which we must maintain in the community and particularly in our great cities. If there is one thing that we need more than another it is the constant emphasis among our citizens of that spirit of fair play, that willingness to give and take, that generosity in defeat and that lack of assertiveness in victory which we identify with true sport and which is learned best of all in childhood upon the playground.

The pleasant evening came to a close about midnight, all agreeing that they had an enjoyable time.

TUFTS STUDENTS BROCKTON MAN

Fought Fire in Home of Professor Gave Stomach a Three Weeks' Vacation

MEDFORD, April 28.—The Tufts college baseball players, together with other students and faculty members, turned firemen yesterday at a blaze in the house of Harry G. Chase, professor of physics at Tufts college, at 37 Sawyer avenue. The damage is estimated at about \$3000.

EDWIN H. ROBBINS of Tyler, Tex., a freshman, was overcome by smoke and cut about the face and hands.

The fire was discovered at 3:25 p. m. Prof. Chase and Mrs. Chase were not in the house and boy 411 was rung in by Mrs. James J. Tucker, wife of Prof. Tucker.

Eight members of the Tufts baseball team, Capt. Charles E. Dustin of Weston, Mr. George L. Ball of Somerville, Roy W. Dickinson of Wisconsin, Mr. Jacob F. Roberts of Medford, Alvin G. Hooper of Tufts college, Martin W. Quimby of Ashuelot, N. H., Oscar C. Bodkin of Somerville and Clarence M. Haskell of Newton Highlands, were practicing on the old campus, hardly 100 yards away. They were the first on the scene and fought the flames until the arrival of the apparatus.

He weighed 163 pounds when he started his fast and the first week he lost 20 pounds. He says the second day was hard, but the worst time of all was on the seventh day. Since then he says he has not had any great craving for food.

Friday he will eat his first meal, but will not start his fast, intending to abstain from all kinds of meats and live on vegetables and cereals.

Mr. Yancey lives at 1449 Main street and before coming to this city made his home in Virginia, where he was born.

ANNUAL MEETING

Of Cotton Manufacturers Association

BOSTON, April 28.—Four valuable papers dealing with power for textile machinery were present at the morning session today of the National Association of Cotton Manufacturers and with four more this afternoon together with the election of officers the annual meeting closes.

By invitation of the board of governors, Dr. D. S. Jacobus of New York presented his ideas and suggestions relative to super-heated steam and super-heaters. This paper was quite technical but contained the results of the Idaho tests.

Then followed a paper by Mr. Lawrence.

The value of the electric drive for textile machinery was well presented by Melton Merrill of Boston. He said that its reliability and flexibility have been appreciated by all who have tried it and the rapidity with which it is being installed at the present time would indicate that it is a drive to be given serious thought, especially by those who are contemplating newer mills.

The last paper of the session was also on power by Charles T. Main of Boston, who spoke on the choice of power for textile mills.

During his stay in Washington, which will extend until Saturday night, functions in honor of the prince and his party will be numerous and elaborate. Ten officers of the Chinese army, accompanying the prince. They are making a study of military methods in Europe and America. One of the first entertainments will be a special cavalry drill at Fort Myer. Sunday morning the imperial party will leave for New York. They sail for England on May 5.

CAVALRY TROOP

Escorted Chinese Prince to Hotel

WASHINGTON, April 28.—His imperial highness, Prince Tsai Tao, brother of the prince regent of China, chief of staff of the Chinese army and uncle of the Chinese emperor who is making a tour of the world on a mission of vital importance to the future of the Chinese empire, arrived in Washington today. A troop of cavalry escorted the prince to his hotel.

Chandler Hale, assistant secretary of state, representing the State Department, and Captain Archibald W. Butt, the president's aide, representing President Taft, took the prince in charge the moment he arrived.

The last paper of the session was also on power by Charles T. Main of Boston, who spoke on the choice of power for textile mills.

During his stay in Washington, which will extend until Saturday night, functions in honor of the prince and his party will be numerous and elaborate. Ten officers of the Chinese army, accompanying the prince. They are making a study of military methods in Europe and America. One of the first entertainments will be a special cavalry drill at Fort Myer. Sunday morning the imperial party will leave for New York. They sail for England on May 5.

JACK JOHNSON

SAYS HE WILL BEGIN TRAINING NEXT WEEK

SAN FRANCISCO, April 28.—Jack Johnson who arrived here last night, said that he would not begin training before the middle of next week for his fight with Jeffries and intimated that he would take matters leisurely until the middle of May.

"Why are people so much concerned about the time I am going to begin training?" he asked. "I have more to lose than people watching me, and I will begin training when I get ready and that will be the middle of next week."

"Now about those stories from Salt Lake that I am out of condition," he continued. "They are a pack of lies. I never started to train for a fight in better shape in my life. People are saying I have deteriorated and the like. Well let them go and bat on Jeff in this fight and they will discover a few things."

The **Oven** has cup-joint heat flues that heat it alike in all parts.

TRUTH CROPS OUT

WHY PILE SUFFERERS SO OFTEN FAIL TO GET RELIEF

Science is getting to the bottom of everything, including the cause and cure of piles. The brightest doctors now admit that piles are caused internally and can be cured only by internal treatment. Dr. J. S. Leonhardt

some time ago perfected a remedy in tablet form—Horn-Roald, which cures

the cause of piles, and therefore cures

permanently. It is sold by Carter &

Sherburne, Lowell, Mass., under money-

back guarantee. \$1 for 24 days' treat-

ment. Dr. Leonhardt Co., Station B,

Buffalo, N. Y. Write for booklet.

Dr. King's latest invention, the "NATURAL GUM," is acknowledged by the dental profession to be a wonderful improvement over the old artificial gum. It has always been easy to recognize artificial teeth in the mouth, but now by using Dr. King's "Natural Gum," a set of teeth can be made by his method, and only by his method, that will absolutely defy detection.

Dr. King's "Natural Gum" is acknowledged by the dental profession to be a wonderful improvement over the old artificial gum. It has always been easy to recognize artificial teeth in the mouth, but now by using Dr. King's "Natural Gum," a set of teeth can be made by his method, and only by his method, that will absolutely defy detection.

Solid Gold Crowns and Bridges \$4

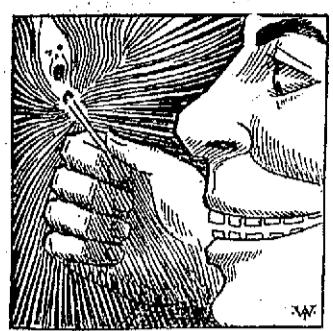

10 YEAR GUARANTEE

This is the only office in Lowell where gold crowns and teeth without plates undetectable from natural ones are inserted positively without pain.

We give our personal guarantee FOR 10 YEARS with each set when teeth are ordered.

THE NEW SUBSTITUTE TEETH

PROMENADE OF SPRINGTIME JESTERS

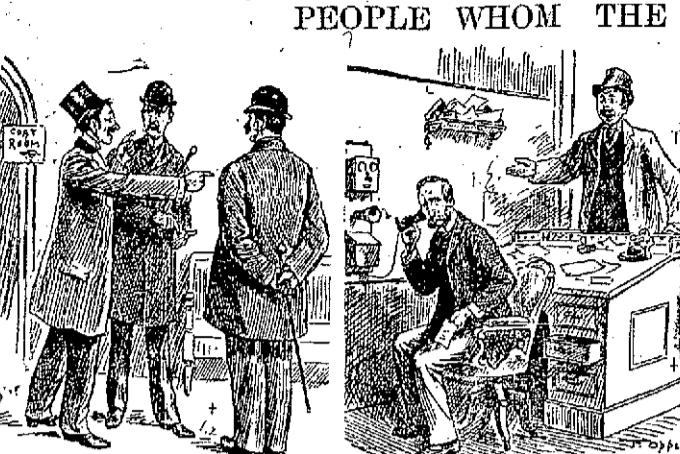

Her Three Ages.
"How old are you, my dear?"
"Eight at home, seven and a half when I go by train and six when I go out with mamma."

Looking Ahead.
"Do you like my new blouse, Julie?"
"Very much, madam. When you give it to me it won't be worn out at the elbows."

Time Enough.
"Did you give my goldfish fresh water, John?"
"No, mum; they haven't drunk what I gave them yet."

The man who interrupts your favor-ite story to finish it himself.

PEOPLE WHOM THE WORLD DOESN'T NEED.

Capacity Too Small.
"Why, Willie, you don't seem to be enjoying yourself."

"No, uncle—I'm having a miserable time. Auntie told me to eat as much as I wanted—and I can't!"

Poor Mamma.
"Daddy," Miss Fawcett at school says I'm descended from monkey."

"Not on my side, my dear."

An Exception.
"Sir, you are the biggest scoundrel that I know."

"Sir, you forget yourself."

AT THE THEATER.

"Look at that girl in the box. Why, she's only half dressed."

"Never mind, my dear. I'll cover her with my glasses."

ARCHITECTURAL.

NOT IT.
Bromo—A penny for your thoughts.
Fizz—What do you take me for—a slot machine?

ANNIE SORRY.
Her skirts were like the snowdrift
Till the sweeper struck the job;
Then they were splashed and splattered;
Hence Annie Laurie's sob.

A NOVICE ON THE LINKS.

TYPEWRITER SUPPLIES.
Salesman—Do you need any type-
writer supplies?
Merchant—Yes; send me four pounds
of candy and a box of chewing gum.

GOOD REASON.

"He seems to feel hurt about some-
thing."
"Naturally. He is the only man in
town who hasn't been asked for his
opinion about the north pole contro-
versy."

DEALER KNEW HIS BUSINESS.
Customer—Take this rubbish back.
I paid you for real ivory, and I find
this is nothing but imitation stuff.
Shopkeeper—I bought the brushes
for real ivory, but the elephants have
taken to wearing false tusks.

AT THE WAKE.

O'Hara—She was a good wife to me,
poor woman. Many's the word of good
advice she gave me.

McGowan—True it is. Many's the
time Ol'e heard her advise ye when
Ol lived in the house beyond, a mile
up the road, ochone.

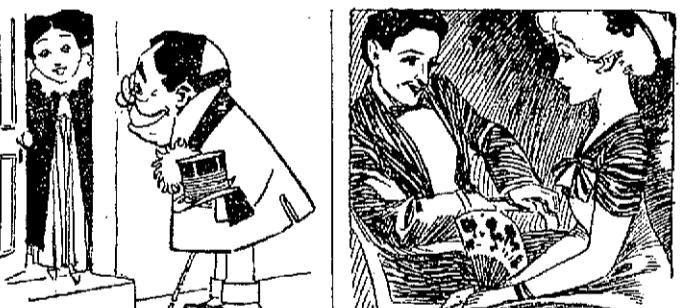

FOOT OF THE CLASS.

Teacher—What is an unclean spirit?
Untempt Scholar—Please, sir, it's one
that didn't go swimmin'.

SOCIETY NOTE.

Fair Player: "Well, I'm the most unlucky person that ever played golf!
First I struck Mr. Chumly in the mouth, then the ball struck Mr. Freshly in
the eye, and now I've broken Mr. Softly's best stick!"

HOW THEY ARE MADE.
Visitor—Is Mr. Palette in?
Maid—No, sir. He's at the St. Vitus'
hospital getting ideas for a new
art poster.

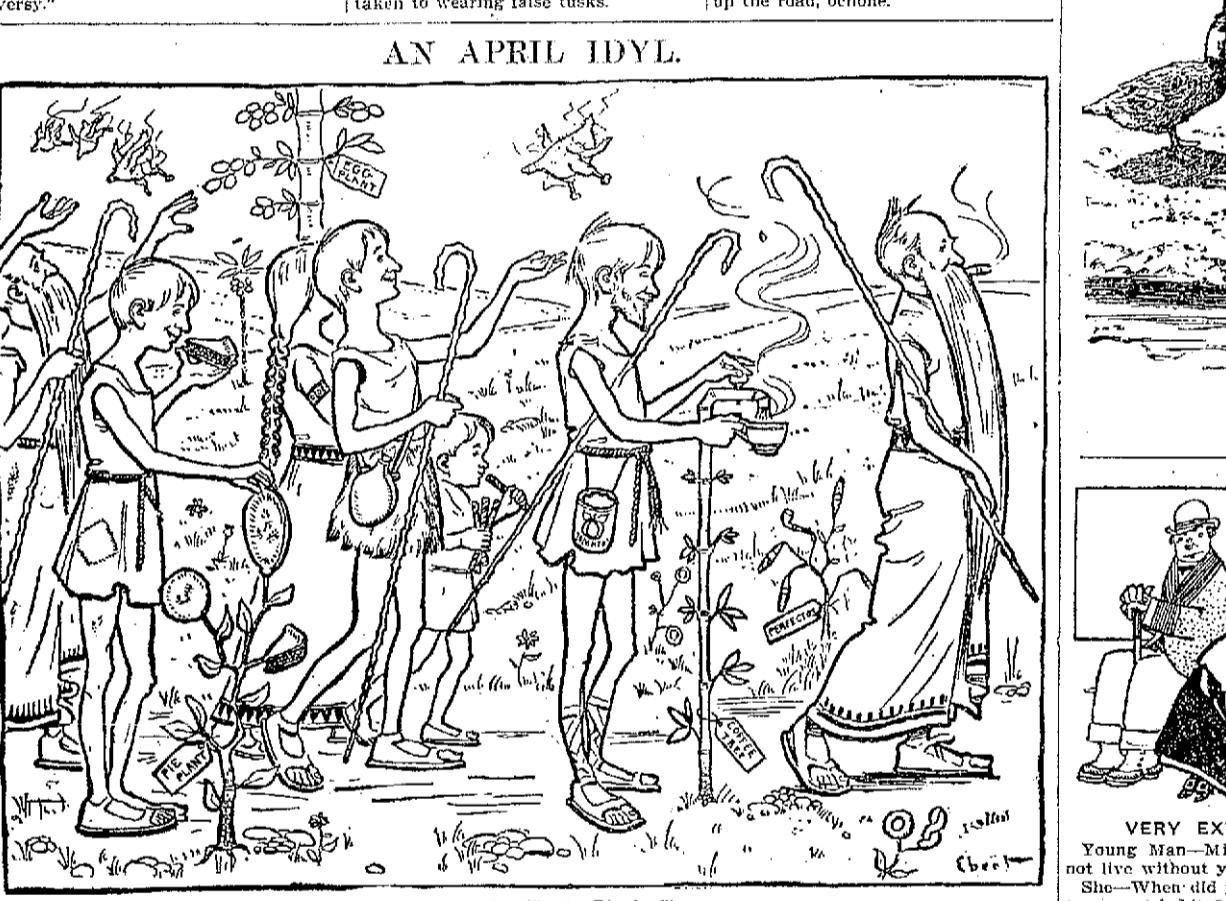

ALMOST PERSUADED.
"Do you believe in theosophy?"
"Well, I meet people frequently who,
when they tell me their ages, make me
believe they're on earth for the second
time."

Young Barclay Bowers with his turnup nose,
In his turned up bed turned up his toes,
And, watched by Ponto, sought repose.

The faithful hound descipted a light
And barked, as he had no time to bite,
Which woke young Barclay up in fright.

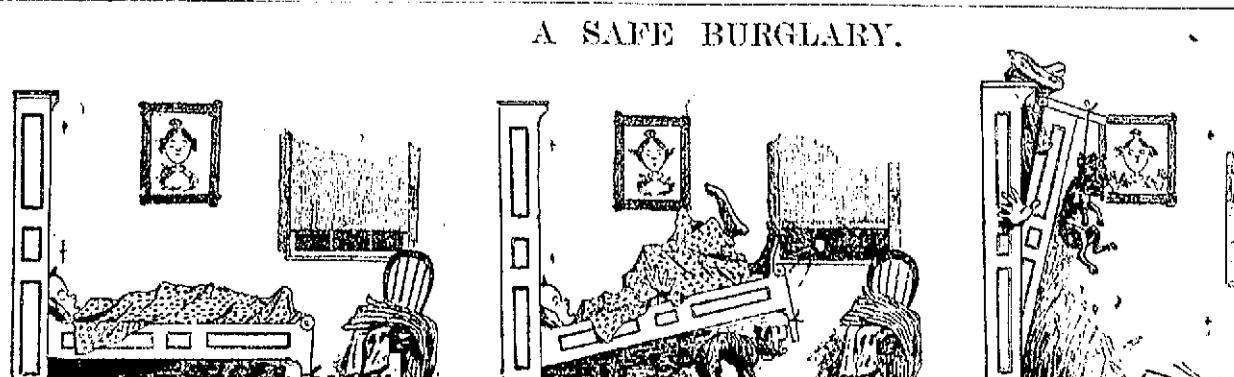

AN APRIL IDYL.

(After sketch by "Dusty Rhodes.")

A CASE OF MAKEUP.
Fanny—I can't quite make up my
mind to accept your proposal.
Felix—Mind and face—how different!

A COMPOSITE.
"Is she dark or light?"
"Both. Her complexion is dark and
she's light headed."

Beyond Him.
"Well, madam, how do you feel to-
day?" asked the United States doctor.
"In my country, doctor, I am a
marchioness," replied the patient.
"Ah, I am sorry to hear it, as that is
a complaint I am unable to cure."

AN APRIL WASHOUT IN THE WIND.

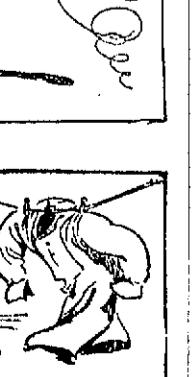

"It must be awful to be caught with
the goods on you!"

TWO EVILS.
"It's worse to be caught with
the goods off you. I forgot three of my
wife's errands yesterday."

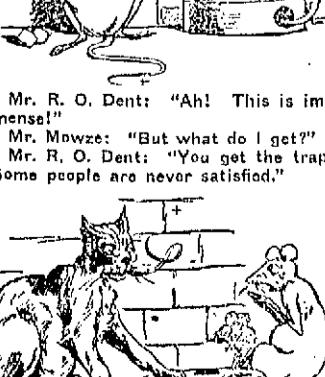

Mr. Mowze: "Great heavens! There
is something in there!"

Mr. R. O. Dent: "Hold on there!
It's Roquefort or I'm a sinner."

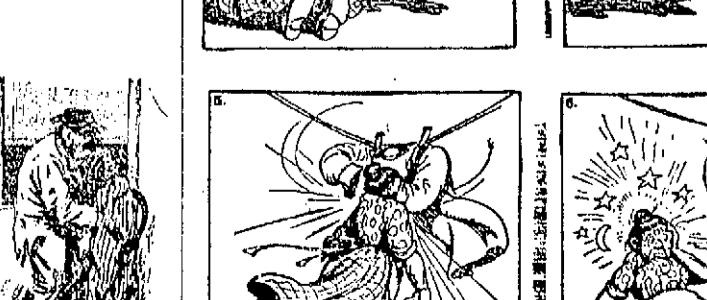

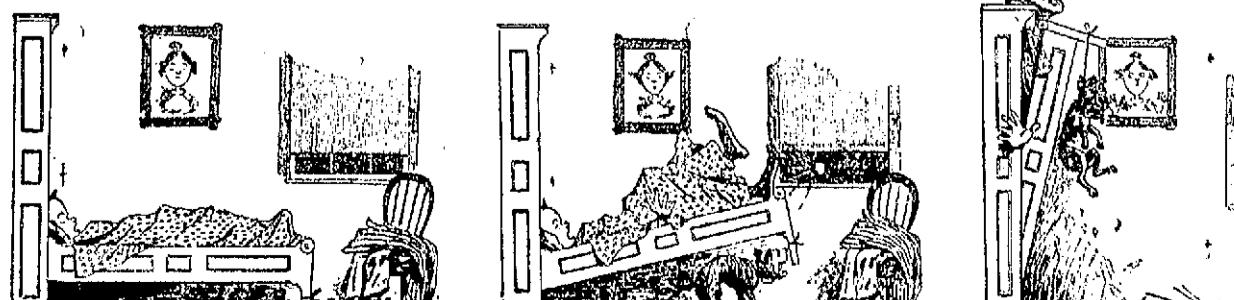

Mr. R. O. Dent: "Ah! This is im-
mensel!"

Mr. Thomas Katz: "That's all!"

A SAFE BURGLARY.

He gave a jump—the bed did, too,
And hid young Barclay Jones from view,
The dog went up. What could he do?

WON \$50,000 PRIZE ANNUAL CONCERT

Paulhan Finished First in Great Aerial Derby

MANCHESTER, Eng., April 28.—The first aerial derby for a prize offered by an Englishman has been won by a Frenchman and handsomely. Upon landing here Louis Paulhan was given a tremendous ovation and unstinted praise for his remarkable feat. At the same time his less experienced but no less plucky competitor is being showered with congratulations over his splendid attempt and because he has shown himself a good loser. As soon as Graham White learned of Paulhan's success he called for three cheers for the victor. Paulhan, winner of the \$50,000 prize for the first flight from London to Manchester made within 24 hours and with not more than two stops arrived here at 5:30 o'clock this morning, almost exactly 12 hours after he left London last evening. White, who got away from the metropolis an hour later, again met misfortune and was obliged to descend at Polesworth and abandon the race after having covered a little more than half the distance. White, who is hardly more than a novice in the art of aviation, encountered treacherous wind currents which three times turned his machine around, and he also experienced trouble with his motor. Paulhan was benumbed with the cold and thoroughly exhausted when he reached here. A great crowd awaited him and gave him a spontaneous welcome. Manchester first saw the French aviator a few minutes after five coming as steadily as a steamer on a smooth sea and heading directly for the field which he had chosen as a landing place. Flying at a height of 400 feet Paulhan came over a clump of trees and then, bringing his biplane abeam with a beautiful curve, landed exactly in the center of the field. He seemed dazed and benumbed and swayed, as he walked down the field. All he could say was "I am very cold, but very happy."

The aviator received a cordial reception but he was too tired to reply to the ovation. Presently he went to a hotel and retired.

Paulhan did the last 24 miles in exactly 24 minutes, outdistancing the special train bearing his wife, Henry Farman, and other friends which had accompanied him. When at Polesworth White was told of the Frenchman's success by mounted the seat of an automobile and cried: "Ladies and gentlemen, the \$50,000 prize has been won by Louis Paulhan, the finest aviator that the world has ever seen. Compared with him I am only a novice. Three cheers for Paulhan."

The crowd gathered about the generous Englishman and gave the chears heartily, following them with a round of chears for White. He said: "There is no longer an opportunity for me to win the prize, but I mean to get to Manchester and by aeroplane."

Speaking of the flight which he made White said:

"I was completely turned three times by the wind. I tried my best to get along against it but it was no use and I was forced to plane down. I managed to get over the telegraph wires and got a start over the track of the railroad at Roode by aid of signal lights but over a good many miles about Rugby I saw no signal lights and there was considerable wind. I could see the clouds racing across the moon and when daylight came the breezes were still vigorous and the gusts troubled me a lot."

Following the example of the Frenchman who got away from London an hour ahead of him yesterday, White was up long before daylight this morning and was in the air at 2:50, more than an hour before Paulhan started for Lichfield, 50 miles further north. White passed Rugby just before daybreak, flying at a great height and with terrific speed in an effort to make up the distance which he had lost by his latest descent. He kept up his speed, following the fallaway line as well as he could in the uncertain

light over Nunaton and Atherton, and when he was compelled to descend at Polesworth he was only ten miles from Lichfield from which point Paulhan had started but a moment before.

Paulhan, upon descending at Lichfield shortly after 4 o'clock this morning, was surprised by the news that White already was in. In the air, approaching Lichfield, Paulhan encountered a sharp southwest wind which, although it made it almost impossible for him to keep it from crashing on the leaves helped him on his way.

E. E. Bagley

After the concert there was dancing to music supplied by a large orchestra and by the full military band. This was kept up until midnight.

The Lowell Military band is one of the oldest organizations of its kind in this city. It had its inception September 16, 1878, when it was called Post 42, G. A. R. Drum Corps. In 1893 it was first formally organized as the Lowell Military band and Mr. James A. Murphy was chosen leader and served continuously until his retirement two years ago. Of the original members of the band who are at present playing with the organization there remain just four, William Regan, the conductor, Peter Gallagher, George Hayward and James Regan.

The officers of the aviator were: General manager, William Regan; assistant general manager, Frank J. Dolan; floor director, Thomas Robinson; assistant floor director, James H. Buckley; chief aid, Robert Stavely; aids, James Keating, Edward Perry, H. J. Roberts, Thomas Howard, Joseph Morris, James Regan.

Acceptance: Louis Gallagher, chairman; Louis Weiler, Henry Mahoney, George Hayward, George Maguire, J. P. Quigley, A. Gaudente, James Usher, William Adams.

Chairman of committee, William Regan; secretary-treasurer, T. Robinson.

Read my proof on page four.

THE TRIED SUICIDE

Man Found Bleeding to Death

GARDINER, Me., April 28.—Slowly bleeding to death from self inflicted knife wounds in the neck and left wrist, William Crocker, a carriage painter, aged about 40, was found today in his lodgings. He had lost so much blood from the artery in his wrist that physicians were unable to save his life and he died within two hours. A letter to his parents who live at East Pittston stating that he intended to take his life, was found. He had been drinking heavily of late, according to the police and a warrant charging him with assault and battery on a woman friend had been issued.

SENT TO JAIL

COURT THOUGHT WITNESS HAD BEEN DRINKING

BOSTON, April 28.—Marlann Santos, who had sued the Elevated road for injuries sustained by his wife, was sent to the Charles street jail for 10 days yesterday, by Judge White, because the court refused to believe his testimony that he had not been drinking.

Santos had sued for \$2000, and his wife for \$10,000. He was on the stand yesterday and appeared to have considerable difficulty in understanding questions put to him and more difficulty in answering. Judge White asked him if he had been drinking while he denied, but he was sent away for examination. After he started for the jail in custody the case was settled. Santos and his wife had claimed that she was injured when a car started too quickly.

LYNN VETERAN

IS HONORED BY THE G. A. R. COMMANDER

LYNN, April 28.—In recognition of the remarkable record of Edward L. Goldsmith, Lynn's 35-year-old resident, and one of the oldest, if not the oldest, member of the Grand Army of the Republic, Commander-in-Chief, William H. Van Sant, who recently paid a visit to this city, has honored the Lynn G. A. R. by appointing him a colonel on his staff. Notice of the appointment was received by Mr. Goldsmith yesterday, and he was immensely pleased.

During Commander Van Sant's visit to Lynn he met Mr. Goldsmith, and when he learned of his remarkable age was keenly interested in the record of the Lynn man.

MATRIMONIAL

Mr. Thomas J. Phelps and Miss Minnie McLean were united in marriage at the home of the bride's mother, Mrs. Mary J. McLean, 240 Hale street, last evening, at 6:30 o'clock.

The ceremony was performed by Rev. George E. Tomkinson, formerly assistant pastor of the First Baptist church, and now of the Baptist church in Southbridge. The bride was given away by her mother. The best man was Robert Friend, and also officiating as flower girl and ring bearer were Miss Minnie Brown, a niece of the bride, and Master Robert Friend, a nephew of the bridegroom. Following the wedding there was a reception. Mr. and Mrs. Phelps received many gifts. They will, upon their return from a wedding trip, live at 240 Hale street.

HOWARD—SMITH

Mr. James A. Howard and Miss Catherine C. Smith were united in marriage Thursday afternoon by Rev. Lawrence F. Tighe, O. M. I. The bride was attended by Miss Mary Howard, sister of the bridegroom, while the best man was Mr. George Smith, a brother of the bride. The bride was charmingly attired in a gown of cream lace and wore a white picture hat and carried a large cluster of roses. At the conclusion of the ceremony the bridal party repaired to the home of the bride, where a reception was held to relatives and intimate friends. Mr. and Mrs. Howard left on the 4 o'clock train for New York, Washington, Baltimore and Philadelphia.

Howard's injuries were caused by his being hit on the head by a pitched ball.

They will be at home to their friends after May 15.

CARD OF THANKS

We the undersigned, desire to thank all those who by words of consolation, acts of kindness and moral offerings helped to lighten the burden of sorrow in the hour of our bereavement on the death of our beloved son and brother, Cornelius P. Donovan. We wish especially to thank Mrs. Mary Healey of New York, Mrs. Nellie Barry of Haverhill and Mr. Harry Eugene Rogers of Lynn. To each and all we are deeply grateful and will ever remember their sympathetic kindness.

Mrs. Margaret Donovan and family.

Saturday, April 30, 1910, at 3 P. M.

AT PUBLIC AUCTION THE DONOHOE PROPERTY AT NOS. 9, 11 AND 13 ANDOVER STREET, CONSISTING OF A FOUR-TENEMENT HOUSE AND ABOUT 2678 SQUARE FEET OF LAND.

On the premises, regardless of any conditions of the weather, I shall offer for sale this four-tenement house and about 2678 square feet of land. The property rents for about \$24 a month and is in an excellent location for the renting of small tenements, it being so close to the many mills in this section. It is the second property on Andover street from Perry street, and is right in the business section of Andover street. I will positively dispose of it on the day of sale to whomsoever will bid the most for it.

Terms: \$200 to be paid to the auctioneer as soon as the property is struck off.

By order of JAMES A. DONOHOE.

If you want help at home or in your business, try The Sun "What" column.

door leading into the tenement over the store for the purpose of awakening George W. Tucke and his wife, whom he knew occupied the place. Both were asleep at the time, despite the fact that the fire was raging in the store below them.

Upon the arrival of the fire department several lines of hose were laid and volumes of water were turned into the burning building, but it seemed to be some time before the water took any effect on the blaze.

Despite the strenuous efforts of the firemen, the fire found its way up into the second story and owing to the density of the smoke the members of the department had their hands full in coping with the fire.

The second story was filled with smoke and this proved too much for Mrs. Tucke, who with her husband and several firemen was attempting to place her possessions in a safe place. She was partially overcome and removed by the firemen to a neighboring fruit store, where she soon recovered sufficiently to be taken to the home of safety.

Officer John Clark brought Mr. Williams, the owner of the store and building in which it is, to the scene in an automobile. Mr. Williams had no explanation of how the fire could have started. He said that he closed up the place and left for home at 6 o'clock, and that at that time everything was all right.

In conversation with a reporter Mr. Williams stated that there was a stock of about \$8000 in his store, much of which was destroyed. Mr. Williams claims to have left the store shortly before 7 o'clock, but he failed to put his books in the safe. He can thank the firemen for the saving of the books for when the men entered the building they saw several books strewn about on a desk and knowing that they might be of value collected them together and carried them to a place of safety.

A tailor's shop conducted by Otto Schelevis at 144 Middlesex street, in the same block, was wet down considerably, and the proprietor will suffer some loss from water.

The fire started among a pile of furniture, and conditions discovered by Chief Hosmer and Lieut. John Freeman of the police department, in charge of the detail at the fire, were such as to necessitate an investigation.

The "all out" signal did not sound until 11:45 o'clock, but most of the apparatus had gone to the various houses sometime before that.

An alarm from box 27 at 13:42 o'clock this morning summoned a portion of the fire department to a lively blaze in a house at 23 Watson street.

The fire was due to a defective chimney, an inmate of one of the rooms being awakened by the flames shooting through the chimney into his room.

The department was prompt in responding and extinguished the fire before any damage was done.

GENERAL MILES

Thrown From Horse and Injured

WASHINGTON, April 28.—Nelson A. Miles, lieutenant general of the United States army, retired, who will be 71 years old next October, was seriously injured yesterday afternoon by being thrown from a new horse he was riding in Potowmack park.

He sustained one broken rib and a severe scalp wound, both of which are causing anxiety on account of the general's advanced age.

Although he is severely bruised about the body, it is hoped that he has not suffered any internal injuries.

The scalp wound is not likely to prove serious.

Since 1903, when he was retired with the rank of lieutenant general, he has withdrawn from active affairs, and has made his residence at N street, Washington.

His horseback ride was one of his daily recreations, and he was a familiar figure in the bridle paths of Potowmack park and the environs of Washington.

The origin of the blaze is not clear, and Chief Hosmer says that there will be a rigid investigation into the circumstances surrounding it. It was discovered shortly after 10 o'clock, almost simultaneously by three men. At the time it had already gained considerable headway and the flames were plainly visible through the big plate glass windows in the front of the store.

Ernest L. Kimball, the sign painter of Middle street, saw the flames and ran to box 24 and started to ring in an alarm. At the same moment Officer Hutchins saw the blaze and ran to the box.

Patrolman John Clark forced the

REJECTED SUITOR

Was Fined for Raising Trouble

GLOUCESTER, April 28.—His love spurned, and no prospects in view of marrying the girl he adored, Glaronne Parcine's mad infatuation suddenly drove him to a state of frenzy and desire to disturb the quiet community at Pigeon Cove last evening, which finally resulted in his being lodged in the Rockport lockup, where he was booked for disturbing the peace.

In the district court, the defendant was found guilty and fined \$10, but from the evidence it is believed that more serious complaint might have been brought.

For a long time, Parcine had sought the hand of the pretty 14-year-old daughter of John Rettie. The mother and brothers and sisters have not looked with favor upon the suit, but Parcine, however, gained the good graces of the girl's father, who sanctioned the match.

Last evening, the defendant came to the Rettie house to see the girl, but neither she nor the family would receive him. Instead he was ordered to leave the premises, but later in the evening he appeared outside of the house and commenced to sing and shout, besides using abusive language.

It also appeared that some time ago he threatened to burn the house, and shoot the family.

The young girl testified that he had threatened to kill her, when she refused to marry him.

U. S. MARSHAL REMOVED

WASHINGTON, April 28.—President Taft has directed the removal from office of Daniel A. Sutherland, United States marshal for the district of Alaska, and John J. Royle, district attorney for the first district of Alaska. General incompetency was the charge against the marshal.

UNITED WORKMEN

BOSTON, April 28.—The highest office in the gift of the grand lodge of Massachusetts of the Ancient Order of United Workmen, was late yesterday bestowed upon Albert H. Clements of Manchester, N. H., being that of master workman. The election was without opposition. The lodge yesterday closed its 32d annual session.

GOVERNOR SIGNS BILL EXTRA CORPORATION TAXES Will Go to Cities Maintaining Their Plants

TWO LIVES LOST

CENSUS WORK

Fire in Manchester, N. H., Caused Damage of \$50,000

Governor Draper today signed the corporation tax bill so-called and popularly known in the legislature this year as the Barlow bill whereby henceforth the entire corporation tax goes to the city or town in which the corporation maintains its plant.

The three men in the legislature to whom the greatest credit is due for the new law are Rep. McCarthy of Marlboro, Rep. Higgins of Boston and Rep. Barlow of this city.

Rep. McCarthy, who is serving his third term in the legislature, started the movement for the transfer of corporation taxes from the city and town to which the stockholders lived to the city and town in which the plant of the corporation is operated. After a year's hard work he succeeded in getting through a bill which gave half of the tax to the city in which the plant was maintained and half to the towns in which the stockholders lived. When Rep. Barlow entered the legislature he became interested with Rep. McCarthy in the taxation movement and this year introduced the bill which has just become law. Reps. McCarthy and Higgins also introduced similar bills, but when they came before the committee on taxation it was agreed to combine them into one bill and let Rep. Barlow introduce the measure through the legislature. All three went hard to work under Rep. Barlow's leadership and the hearing before the committee on taxation was one of the memorable committee hearings of the present session.

The greatest influence was used to defeat the bill and the result was that the committee reported adversely on it with one dissenting vote. Nothing daunted, however, Rep. Barlow and

his lieutenants went after the members of the legislature and after a hot fight on the floor of the house in which Rep. Barlow and Rep. Marchand and the democratic members from Lowell made a big fight the bill was substituted for the adverse report.

When the bill reached the senate Senator Hibbard of this city took charge of it and worked like a Trojan for its success in the upper house. Through his hard work and popularity "Joe" got the bill through last week and this morning the governor signed it. The quill with which the governor signed the bill was given to Rep. McCarthy who first started the movement for a change in the corporation tax system.

When seen by a reporter of The Sun today Rep. Barlow said: "Of course I am greatly pleased at the successful outcome of the matter for I worked hard for it, as it means much over \$100,000 a year additional in taxes for Lowell. I am greatly indebted to Senator Hibbard and the members of the local delegation for the cooperation given me and the hard work put in by them."

Rep. McCarthy was talked with by a reporter over the phone and he said: "The passage of this bill means a great deal to Lowell, New Bedford and the other large manufacturing centers and it is a source of great satisfaction to know that it has become law on account of the determined and influential opposition to it. If you are writing any comment on the passage of the bill don't forget to give due credit to Rep. Barlow, Senator Hibbard, Rep. Marchand and the other Lowell members for regardless of party all worked together for the passage of the bill."

MATRIMONIAL

Mr. Patrick J. Kane and Miss Norah Jones were united in marriage at St. Patrick's rectory yesterday afternoon. The officiating clergyman was Rev. Timothy V. Callahan. The bride was attended by her sister, Miss Catherine Jones, and the best man was Mr. Thomas J. McCarthy. After the ceremony the bridal party repaired to the future home of the young couple, 9 Bowes street, where a reception was held. The bride was dressed in a gown of white silk with an overdress of Irish point lace. She carried a cluster of American Beauty roses. The bridegroom also wore a gown of white silk with lace trimmings and carried an immense bouquet. Friends from New York and Boston were present at the reception. The young couple received a large number of gifts from their friends, in fact their house was completely furnished. The Wolfe Tone Guards, of which the groom is a member, the employees of the Lowell Machine Shop foundry, the Young Ireland Curling club and other organizations expressed their friendship and respect for Mr. Kane and his young bride by beautiful gifts.

A wedding supper was served during the evening and following this there was dancing, an orchestra of five pieces furnishing music. Late in the evening Mr. and Mrs. Kane departed on their wedding trip, which will include a journey to New York and Washington. Upon their return they will reside at 9 Bowes street and will be at home after June 1.

BILL KILLED**TO PROVIDE FOR JACKS ON ELECTRIC CARS**

In the legislature today a bill compelling street railways to supply their cars with jacks in case of accident was defeated by a vote of 87 in favor and 107 against.

BENEFIT PARTY**TO BE HELD IN LINCOLN HALL TOMORROW NIGHT**

Tomorrow night in Lincoln hall, Gorham street, a dance will be held to raise funds to aid three orphans who are left upon their own resources and who are too young to make an attempt to earn a living. A kind hearted friend who does not wish to have his name mentioned has arranged the party and has taken charge of the distribution of tickets. Pease's orchestra has been engaged and all who attend are assured of a good time. The cause is a worthy one and all who aid by purchasing tickets and attending will be assured of reward, for the little ones will not forget their benefactors.

GONE TO JURY**MANN CASE FINISHED THIS AFTERNOON**

The case of Mann vs. Moore Spinning Company went to the superior court shortly before adjournment this afternoon.

AQUEDUCT RACES

AQUEDUCT, N. Y., April 28.—First race—Onager, 100, Creery, 1 to 10, out, won; Starter, 105, Butwell, 30 to 1, 4 to 1, out, second; Hermette, 100, McGee, 20 to 1, 2 to 1, 1 to 2, third. Time, 54.

Second race—Rocky O'Brien, 107, Archibald, 3 to 1, 1 to 2, out, won; Rose Queen, 111, McGee, 1 to 3, out; King Olympian, 33, class, 20 to 1, 2 to 1, out, third. Time, 1.12.

HOUSE PASSED BILL

WASHINGTON, Apr. 28.—The house today passed unanimously the resolution offered by Mr. Sladeen of Texas, calling on the secretary of war for information concerning the sale or leasing of land in the Philippine Islands.

SMITH'S BODY ARRIVES

LEWISTON, April 28.—The body of Wellington Smith, the Lee paper manufacturer, who was killed by the collapse of a folding bed in New York on Tuesday night, arrived here this afternoon in charge of his son, Augustus Smith. The funeral arrangements have not yet been completed.

**THE BACHELORS ARE THE BIG ATTRACTION TOMORROW NIGHT**

The Bachelors tomorrow night in Asylum hall.

All you lovers of minstrels know what that means. When you see the Bachelor boys you are entertained by about as clever an aggregation of singers and comedians as you can assemble. Charlie Slattery is manager of the great production and Arthur Martel is musical director. William Gookin, the favorite baritone, will sing the Stein song and John Dalton will be heard in Arthur Martel's song, "Song of Uncle Sam." "Love Light" will be sung by Martin Maguire and Ed. Shaw will render a pretty selection. Frank Connor's contribution to the program will be one of the latest ballads, and the Glendale quartet will sing with selections one of which was composed by Henry Cary, a member of the quartet, and is entitled "I'll Come to You." Then another great feature will be Arthur Martel's grand march song. The comedians are all well known and if you want to enjoy a laugh be sure and hear them.

Here are the stars: Babe Rogers, Chas. Detoe, Thos. Corbett, Luke McDonald, Wm. Murray, Frank McCarthy, and they will entertain in the very latest typical and coon songs filled with local hits.

Indications Point to No Big Increase in Population—Enumerators Already Report 500 Empty Tenements in Lowell—More People Here Than Can be Supplied With Employment

The work of the census enumerators is progressing with commendable energy and Mr. Alex. Fecteau, Jr., who has charge of the local work is of the opinion that the work in Lowell will be completed by one week from Saturday.

"How is the work proceeding?" asked a reporter.

"That is a mere matter of guess-work at present," replied Mr. Fecteau.

"We are going along finely," responded Mr. Fecteau. "We are particularly fortunate in the selection of in-

terpreters this year. Five years ago

the interpreters proved to be somewhat of an annoyance, but this year we have no complaint to make on that score."

"What will the population be approximately?" asked the reporter.

"That is a mere matter of guess-work at present," replied Mr. Fecteau.

"We are going along finely," responded Mr. Fecteau. "We are particularly fortunate in the selection of in-

terpreters this year. Five years ago

the interpreters proved to be somewhat of an annoyance, but this year we have no complaint to make on that score."

STATE HOUSE NEWS

Eight Hour Bill Was Put Over to Tuesday

BOSTON, April 28.—Contrary to expectation, the senate did not vote on the eight hour bill yesterday, but on motion of Senator Turle of Pittsfield put it over until next Tuesday. That is, it said, has some "perfecting amendments" to offer. The labor lobby wanted to see them yesterday, but didn't do so at the time of adjournment.

The same senator had the Timchuk anti-injunction bill postponed to the same day, and Senator Mulligan saw to it that the seamen's union bill to which he is opposed, was put on the calendar for Tuesday.

Rankin Explains Absence

Senator Rankin of Taunton rose to a question of personal privilege. He objected to being criticized, not only in his own district, but all over the state, for not being present at the roll call on the "84 hour bill" Tuesday. Senator Rankin said that no member of the senate was a more ardent friend of labor than he, but he is chairman of the committee on engrossed bills and papers come over from the house so late that he has to go without his lunch to be in the senate on time.

Tuesday, he said, he got his lunch, and then being interested in the \$35,000 fish hatchery for his district, he went into the fish and game commission. When he got into the senate again, he wished to explain that he did not "nick" the bill and no man felt worse than he did that he was not present to vote for reconsideration.

That Senate Elevator

The lower branch Mr. Brown of Medford, and Mr. Conwell of Somerville urged a motion of the former that the house reconsider its action in rejecting the bill providing for an additional elevator for the accommodation of members of the senate.

Mr. Pope of Leominster said the question before the house was whether the members will be courteous to the members of the senate or to the taxpayers of the commonwealth.

The motion was also opposed by White of Brookline, Knight of Boston, Hall of Springfield, and Rawlow of Lowell, and it was defeated, 44 to 73.

Middlesex Court Accommodations

The bill authorizing the county of Middlesex to construct a new building in Cambridge for the third district court of eastern Middlesex, the debate on which was begun Tuesday afternoon, reached its climax yesterday afternoon, the Cambridge representatives being practically unanimous in their opposition to the bill.

Mr. Ahearn of Wrentham believed the accommodations of the present court house are utterly inadequate for the court which does the second largest business in the commonwealth. Mr. Cavanaugh of Everett said he could find no demand for the construction of a \$80,000 court house for this court, and he did not believe the taxpayers of the county ought to be burdened with such an expense. The bill was rejected, 36 to 80.

Pasteurized Milk Bill Passed

The bill requiring the state board of education to assist school teachers in securing positions and the resolve providing for an investigation and report as to the adaptability of the public waters to the rearing of food fish were ordered to a third reading without debate.

Mr. Dean opposed the pasteurized milk bill, fearing that the sale of milk of this character was the cause of the scarlet fever epidemic in Boston. This was denied by Howard of Easton, Conway of Boston and McCarthy of Marlboro, and the bill was passed to be engrossed.

Worcester Tech Gets \$15,000

When the bill making an appropriation for the Worcester Polytechnic Institute in return for the granting of 40 free scholarships at the institution was reached, Mr. Bellamy of Taunton offered an amendment providing that the number of scholarships shall be 50.

Mr. Kennedy of Worcester opposed the appropriation on the ground that the state should not lend its aid to

NEW MEDICAL DISCOVERY For All Skin Troubles

A chemist who was convinced that the old method of taking internal remedies to cure skin diseases was erroneous, has discovered that an extract from a particular part of a well-known tree possessed antiseptic and curative properties on the skin tissues. It was, however, found that this valuable vegetable extract was difficult to compound with other ingredients necessary to present it in a form convenient to use. After further investigations and experiments a method of special treatment was devised, resulting in a combination of ingredients possessing to a marked degree valuable therapeutic properties, the like of which has never before been produced. This important product is known as Cadum. Since its introduction Cadum has cured many cases of chronic eczema, and other unyielding, irritating, and distressing skin diseases, and this after other treatments have failed. Cadum stops the terrible itching of eczema at once, and begins the healing process with the first application. Its action is still more remarkable in less serious skin troubles, such as blisters, pimples, blisters, tetter, itch, acne, herpes, scaly skin, psoriasis, ringworm, rash, chafings, eruptions, sores, itching piles, scurvy, backheads, scabs, etc. Many of the results effected by Cadum may be truly called remarkable. It destroys disease-producing germs, relieves inflammation and is soothing and healing to the skin. Trial box 10c; large box, 25c.

Lifting Jacks on Cars

Mr. Heneberry of Worcester moved to substitute for an adverse report of a bill to require street railway companies to equip their cars with lifting jacks. He declared that there are many instances in which human lives could have been saved had there been a lifting jack to lift the car from their bodies.

Mr. Munroe of Peabody said the law at present permits the railroad commissioners to require the carrying of these utensils if they are necessary, and the matter should be left to the body of experts.

Mr. Conway of Boston said the agitation for lifting jacks has been going on for five years or more, and the railroad commissioners have done nothing; he did not think it should be left to them any longer.

The hour of adjournment cut off debate.

Automobile Regulation

The committee on roads and bridges reported an automobile bill, amending the codification of last year, to provide that autoists from out of the state may remain in Massachusetts 10 days without registration, provided the state or country from which they come grants the same privileges to Massachusetts autoists; also to remove the restriction as to chauffeurs wearing the metal badge on the sleeve; also to provide that plates may be carried not higher than 48 inches above the pavement, instead of 36 inches; also an to signaling to provide that no horn shall be sounded so as to make an unreasonable noise. Representative Willits dissent from so much of the bill as relates to the making of unnecessary noise in signaling.

Meals for School Children

In the senate the ways and means committee reported ought not to pass on the resolve that the state board of education investigate the practicability of authorizing cities and towns to furnish meals for children in the public schools.

Also ought not to pass on the bill to establish salaries of county commissioners of Bristol amended by striking out \$500 and inserting \$4500. At present \$3000 is allowed for salaries of Bristol county board. The committee on ways and means gives them an increase of \$600, but not \$1500 as the original bill proposed. The three commissioners will get a raise of \$200 apiece.

Herring Bill Engrossed

Senator Teele moved reference to the next general court of the bill to regulate tonching for herring in Cohasset, Scituate, Duxbury and Plymouth waters. The senator claimed that the towns didn't want this bill and that there should be a general bill next year.

Senator Keith of Bridgewater said that the selection from each of the towns appeared before the committee on fisheries and game and demanded this bill. He opposed reference to the next general court.

Senator Nash of Hanover opposed the reference. He said there wasn't a particle of opposition to this bill when it was heard.

Senator Teele said if they had known of it, he would have filed the room with renunciants.

The motion was rejected on a rising vote, 6 to 15. The bill was then engrossed.

Tunnel to South Station

These committee reports were filed in the house:

Metropolitan affairs, a resolve directing the Boston transit commission to prepare plans and an estimate of the cost of constructing a tunnel from Park street to South station (Representative Thomas dissent) and a bill to provide further for the abatement of the smoke nuisance in Boston.

Fisheries and game, a bill authorizing the commissioners on fisheries and game and their deputies to search without a warrant.

Ways and means, ought not to pass on the bill providing for a bathhouse on the Mystic river, under the control of the metropolitan park commission.

Judiciary, a bill to revise the procedure in the trial of cases originating in the land court, in accordance with the recommendations of the commission on the delay in the trial of civil causes, leave to withdraw on the resolve providing for the appointment by the governor of a commission of three persons to investigate in regard to the character, methods and operation of voluntary associations or trusts organized to hold the securities of public service corporations in Massachusetts; leave to withdraw on the bill to extend the sitting of the superior court at Worcester; leave to withdraw on the bill authorizing appeals to the supreme court in cases of the setting aside of verdicts; next general court on the bill providing that when new trials are ordered in cases of personal injury a new trial shall be only upon the question of damages; next general court on the bill providing that verdicts shall be set aside for fraud in the conduct of the suit or for incompetency on the part of a member of the jury.

Blue Hills Bill Fails

Metropolitan affairs, leave to withdraw on the bill providing that the Blue Hills reservation shall be preserved in its natural state.

Ways and means, ought not to pass on the bill providing that in the case of officers subject to the civil service regulations, if no eligible list of employees is prepared, competent persons may be employed until the preparation of such lists, and if no list is prepared within six months such persons shall not be discharged except by order of the employer. A bill appropriating \$18,000 for the New Bedford textile school, contingent upon an appropriation of \$10,000 by the city. Representative Jean White of Newton, O'Brien and Connelly, next general court on the bill to increase the number of asso-

SUDDEN DEATHS

Boston Men Passed Away Quickly

BOSTON, April 28.—Andrew McLennan, 70, of Westwood; George McConway, 49, of Rindge place, Charlestown, and John E. Johnson, 34, of Railroad street, Braintree, met sudden death in Greater Boston yesterday. McLennan fell from the seat of a wagon he was driving at the corner of Hyde Park and Neponset avenues yesterday afternoon and was instantly killed.

Charles B. Smith, 71, yesterday went into Jamaica pond and was pulled out by James Kirby, a special officer of the park department. He was sent to the City hospital suffering from the shock.

John Lipari, 16, of 19 Hemenway street, fell from the walls of the new mills in course of construction on Addison street, East Boston, and was taken to the East Boston relief hospital. Hugh Condy, 45, of 69 Warwick street, a teamster, was jammed between his team and the New England storage warehouse at 30 George street, and taken to the city hospital.

ARREST WOMAN

She is Charged With Kidnapping

NEW YORK, April 28.—A well-dressed woman, who said she was Mrs. Alfred Gong of 421 Lavat street, Montréal, Canada, was arrested on board the Clyde line steamer Comanche yesterday afternoon, just as she was about to sail for Jacksonville, Fla., with the woman was a 2-year-old child. Mrs. Gong was taken to police headquarters. The complainant against Mrs. Gong is a Mr. Walsh, who represents the Children's society of this city. Mr. Walsh called on Inspector Russell, in charge of the detective bureau, and showed him a telegram he had received from O. H. Stoerker, superintendent of the Society for the Prevention of Cruelty to Children in Montreal, in which the latter said that Mrs. Gong had kidnapped two-year-old Yvonne Durval from the home of her foster parents in Canada and had left for this city on her way to St. Augustine, Fla.

John Lipari, 16, of 19 Hemenway street, fell from the walls of the new mills in course of construction on Addison street, East Boston, and was taken to the East Boston relief hospital. Hugh Condy, 45, of 69 Warwick street, a teamster, was jammed between his team and the New England storage warehouse at 30 George street, and taken to the city hospital.

RACE FOR \$50,000

Paulhan and White Engage in an Exciting Contest

LONDON, April 28.—The struggle which placed him 57 miles ahead in the race when darkness compelled both to alight for the night.

Paulhan's machine, only arrived in London at 6 o'clock in the morning, and both he and White were busily engaged all forenoon in fitting up their aeroplanes and perfecting arrangements for the start.

The weather was favorable, but owing to the heavy work involved in preparing the machines it was supposed that the start would be deferred until today.

The two aviators had met early in the morning and discussed plans, expressing the hope that they would meet each other in Manchester. During the day constantly increasing crowds gathered at Park Royal and Hendon, the respective headquarters of the two men, in the hope of witnessing the trial flights. Late in the afternoon White, tired out, returned to his hotel

remarked to his patient who had been cured by Lydia E. Pinkham's Vegetable Compound after his efforts had failed, "Mrs. Weber, I do not believe in patent medicines, but I will say that Lydia E. Pinkham's Vegetable Compound is the best medicine ever discovered for women. Continue to use it." This is another link in the long chain of evidence to prove the reliability of this standard medicine for women.

SCENE IN "HAVANA" AT OPERA HOUSE TONIGHT.

and went to sleep, intending to start in the morning. Meanwhile, the spectators at Hendon were surprised to see Paulhan, after trying his machine, take farewell of his wife, who tied a large map of the route around his waist.

Paulhan kissed his wife and took his seat in the aeroplane.

After a brief trial spin, which he made with the object of finding out if the motor was working well, Paulhan travelled a short distance to the south-eastward of his starting point so as to get within a five-mile radius of Charing Cross required under the rules of the contest. Then, swerving quickly to the right, the French aeronaut picked out the London & Northwestern railroad, above which he flew northward at a fine speed despite a smart head wind.

Prior to his departure Paulhan announced his intention of trying to reach the goal without stop. Paulhan's magnificent flight of 117 miles without descent in 2 hours and 50 minutes, compares favorably with his flight on April 18 from Orleans to Arcis-sur-Aube, a distance of 118 miles, in 3½ hours. The following shows the progress of the race:

Paulhan—Hendon, start 5:20 p. m.; Bletchley, 47 miles, 6:27 p. m.; Reade, 58½ miles, 6:40 p. m.; Rugby, 58 miles, 7:21 p. m.; Litchfield, descent, 8:10 p. m.

White—Start 6:30 p. m.; Tring, 32 miles, 7:15 p. m.; Bletchley, 47 miles, 7:35 p. m.; Wolverton, 58 miles, 7:50 p. m.; Reade, descent, 7:55 p. m.

Paulhan has about 117 miles to his credit in the 186-mile contest, while White has only 60. Both travelled at the rate of between 35 and 40 miles an hour.

Paulhan's magnificent flight of 117 miles without descent in 2 hours and 50 minutes, compares favorably with his flight on April 18 from Orleans to Arcis-sur-Aube, a distance of 118 miles, in 3½ hours. The following shows the progress of the race:

FIRE CHIEF SUSPENDED

Head of Lawrence Dept. Charged With Incompetency

LAWRENCE, April 28.—At an adjourned meeting of the aldermen last night, Mayor White preferred charges of incompetency against Fire Chief James A. Hamilton, and although no action was taken by the board as regards confirmation of the mayor's action, he suspended the chief pending a hearing on the charges May 11.

The aldermen insisted on a hearing when the mayor asked them to sustain him in his removal of the chief, and it was only after the board showed that it would not countenance a removal without giving the chief an opportunity to refute the charges that the mayor ordered suspension.

The mayor's authority in suspending without confirmation by the board was questioned, but he claimed he had the right.

The charges name incompetency, extravagance in the purchase of supplies and in ordering repairs, and acting without authority from the city government.

order providing for the expenditure of \$5,000 for a playground at the John K. Turbox school, which will have wading and swimming pools, a gymnasium apparatus and shower baths.

The mayor refused to name a board of health, because he said the aldermanic board did not seem to favor his nominees. So the city is still without a board of health.

NORTH CHELMSFORD

The North Chelmsford Choral society gave a delightful concert before a large and appreciative audience in the Second Congregational church last evening. The chorus of 40 voices was assisted by Mrs. Nano Gallagher Leahy, Mrs. Daisy Duncan and Mrs. Hanson, as soloists; Arthur Booth, violinist; and Miss Ethel A. Hinton, render-

er. Mr. Pleckin ably directed the chorus and Mrs. Slater was the organist, with Miss Helen Savage and Herbert Waterhouse as accompanists. The program was as follows: Chorus, "Soldiers' Chorus," Ground; solo, "Lullaby from Jocelyn," Godard; Mrs. Nano Gallagher Leahy; male quartet, "Moldorado," Ciro Plusutti; and Miss Ethel A. Hinton, render-

er. The pups stand about two feet high and weigh 75 pounds each and are the offspring of the noted sire, King Kraft.

The hounds are to be thoroughly broken to man-hunting by an expert trainer, although as they are natural trailers they will not require much handling, save getting them under control and giving them the necessary ex-

perience.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun
for the year 1909 was

16,828

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilote, pressman, of The Sun, before me, January 1, 1910. J. JOSEPH HENNESSY, Notary Public.

This is by far the largest average circulation of any newspaper in Lowell.

EXPERIMENTAL OPERATIONS BY DOCTORS.

The report coming from an orphan asylum in Philadelphia to the effect that doctors used the children as "human material" for experimental operations, the results of which were doubtful, is really astounding.

It is understood that the operations consisted in new and untried tests for tuberculosis, some of which had serious results. The pretext was sufficiently plausible to deceive the unprofessional.

If vivisection of the lower animals for scientific purposes be prohibited, surely the lives of little children should be protected from experimentation that may ruin their sight, their mental faculties or physical well-being.

Once upon a time it is reported that doctors took upon themselves the responsibility of performing certain unnecessary operations upon children in this city. Fortunately the practice was stopped as soon as discovered and will not be repeated. There is enough of this experimentation for medical research in ordinary practice in some hospitals and state institutions where students get their practical knowledge, it may be, at the expense of many lives. The nursery and orphan asylum should be spared the infliction.

THE ABOLITION OF THE TRAINING SCHOOL.

The abolition of the Training school at a time when there was no agitation against the school has caused a good deal of surprise. Of late, however, there has been no great sentiment in favor of the Training school on account of the manner in which it has been conducted. The principal has been absent a large portion of the time, and reports from the parents of the children give some ground for the belief that the progress of the pupils was greatly retarded by the frequent changes in teachers made necessary by the training of young teachers. But one thing that can be said in favor of the school is, that the young teachers were admitted on their merit.

Now that this system has been changed, the question arises, are we to revert to the old system of securing positions in the schools by political pull or by payment of a sum of money?

Instead of placing the responsibility and power upon the superintendent both are delegated to a board of eight grammar masters and the principal of the High school. This board of supervisors is to pass upon the merits of the teachers who seek positions and the school board, so far as appears, will have to accept the recommendations of this supervisory board.

Why discriminate against the other principals? It is noticeable that on that board is Principal Barr of the new Washington school, while three of the oldest principals in the city in point of service have been ignored. What is the motive of this? Is it because of any personal objection to the principals thus discriminated against?

If these principals are not in every way competent to perform all the duties assigned to any principal, supervisory or otherwise, why retain them at all? If on the other hand their competency cannot be questioned why discriminate against them?

If the young teachers appointed for a trial period were allowed to rotate among the grammar schools so that each master could report upon their work then the school board might have some reliable data to guide it in the selection of teachers if indeed it be the aim of the board to select teachers on the ground of merit alone.

If the duties of superintendent are to be transferred to the grammar masters then why retain the superintendent? Why pay him \$3000 a year for doing nothing of any importance? Better abolish that office also if the new arrangement is to make it needless.

In outlining his plan of improving the schools, Mr. Simpson of the school board made the following statement:

"Whatever plan is consummated, the grammar master must, in the last analysis, be the judge of the fitness of candidates for the positions in his schools and be responsible for their selection. This is fundamental, and cannot be changed by any condition. Assuming then, that each master should be held responsible by the school board for the character and the intellectual and professional capacity of his teachers, a system must be devised which shall bring it within the power of the master, acting under competent advice, to secure suitable teachers for his school."

How far will the principals be responsible? What will happen the supervisory board individually or collectively if any member is instrumental in securing the appointment of incompetent teachers?

If the principals secure the appointment of their relatives and friends are they likely to complain if these appointees fail to come up to the standard? Then if the principals do wrong in the schools they will have nothing to fear in the line of complaints from the subordinates whom they selected. Thus the board is trying to establish a system that will run itself wholly regardless of results.

Had the school board adopted a system under which the new teachers would be selected on recommendation of the superintendent on the rating of their work by the grammar masters without exception or discrimination, we do not believe there would be any serious criticism of the system. But to eliminate from this new duty certain principals and to place in the hands of the other principals the power and responsibility that properly belong to the superintendent, is too radical a departure to meet public approval. Furthermore, it is subversive of the fundamental principle of placing power and responsibility in one executive head and holding that official strictly to account for conditions. The change adopted by the school board will not work, and will never meet public favor because it does not appear to have been made for the best interests of the schools.

Perhaps the most absurd arrangement of all is that before a teacher can be admitted even to an examination for admission to the Lowell schools, she must have served a year somewhere else, say in Dracut, Tyngsboro, Methuen, Lawrence, Bingville or Kalamazoo. The effect of that rule will be to bar out all Lowell teachers who do not start elsewhere, while giving preference to outsiders who may not be nearly so good.

We may as well be candid with the school board and inform these enlightened gentlemen in advance that the people of Lowell will not submit to any such imposition.

SEEN AND HEARD

When a man thinks that he is the only man on earth who knows how to make a salad, it's no earthly use to argue with him.

The man who makes up his mind always to return good for evil will have to lay in an enormous stock of good.

What if the price of bacon does continue to go up? Broiled live lobster is a good deal better, anyhow.

Money in the bank gives one an easy, independent feeling that comparatively few people have.

THE TWO ROSES.
The first rose is sweet,
But no sweater, dear,
Than the last rose that blooms
At the end of the year.I often have watched the first rose unfold,
A story of beauty and sweetness I told,
Like youth in its morn on a fair maid'en's brow,
Or the sweetness of love that is sealed with a vow.It smiled in the sunshine, gladdened the earth,
Gave joy to the world that had given it birth,
Laughed with the many, shed tears with the few,
And lavished its sweetness as others will do.But time travels fast, and now it grows old,
Repeats the same story that has often been told,
While youth ever budding and glowing in bloom,
Keeps basking in sunshine, forgetting its doom.The last rose that grew was full of delight,
Spread its leaves to the morning and hallowed the night,
Heard its praise sung by many, neglected by none,
And smiled like its sister and others have done.The first and the last roses come and they go,
Have springtime and summer and winter snow;
They live and they die, and leave the bare stem,
Of memory behind, to remind us of them.The first rose is sweet,
But no sweater, dear,
Than the last rose that blooms
At the end of the year.

Gilbert E. Hetherington.

It is a sad thing, of course, not to have any friends, but it saves you money and time that you would otherwise spend in buying and sending sunken postcards when you go away.

cats bolted so that they won't be able to catch the birds. Probably the rats and mice do, too.

Man, of course, ought to be willing that woman should have her say. She's bound to, anyway.

Sometimes you meet a woman who says frankly that she would rather be a man. Did you ever meet a man who was willing to admit that he would rather be a woman?

What is the proper thing to say to the nervous than who starts when he meets you on the street, and says it is a fine day, isn't it, when it isn't?

Remember, the last professional minister shown in Lowell was a disappointment. Moral: See the Bachelors' show, Friday, Associate Hall.

ANNUAL REPORT

OF STATE CHARITIES HAS SOME
INTERESTING FIGURES

In the annual report of the state board of charities, just published, it is shown that 913,401 persons were beneficiaries of charitable corporations whose property is exempt from taxation for the year 1909.

Of this number 171,372 were aided free, the remaining 742,028 paying in whole or part for the service rendered. In addition to the individual beneficiaries are 446 families and 30 corporations.

A very considerable portion of the report is devoted to returns from the 189 city and town almshouses.

The largest number in a single almshouse was in that on Long Island, Boston, where there were 873. Next after that came Lowell with 347. Fall River with 262 and Lawrence with 182. In 20 almshouses there were found 123 consumptive cases, about two-thirds of them being in Boston.

The annual cost of all paupers, state and local, in Massachusetts, has increased from \$2,338,518, in 1889, to \$3,606,153, in 1909, yet \$3,000 a day.

The board recommends that all privately-lying-in hospitals shall be made subject to license by it, as are infant boarding houses, and that all other private hospitals and all private sanitaria, etc., be made subject to license by the state board of health.

The annual report of the trustees of the state infirmary, formerly known as the state hospital at Tewksbury, for the year ending Nov. 30 last, is just issued. It shows the total number of admissions for the year to have been 5334, a decrease of 834 from the total of the year previous.

The total of persons cared for, 7019, was 462 less than the previous year. More than 84 per cent of those treated were hospital patients.

Of the total 4185 were women and 1345 were men, and 3556 were from Boston. The next largest number 294, were from Lowell. As to nativity of admissions, Ireland furnished 1522, Massachusetts 1367, British provinces 572, England 268, New York 205, Russia 174, and Italy 164.

The report says:

Under chapter 101 of the Acts of 1908 there was appropriated the sum of \$324,000 for the maintenance of this institution. During the year there was expended for current maintenance \$392,130.68, of which \$114,281.15 was for salaries, wages and labor, and \$75,849.53 was for general expenses. This gives a gross per capita cost of \$3.64 per week, or 25 cents more than for the period last reported.

In the department for the insane, the daily average number of patients was 681 and the number of admissions during the year, 226. There were 86 deaths. Eight nurses graduated from the training school.

The first period was the oriental—a doctrine of force, pure and simple, re-lived in these days by Nietzsche, from whom our ex-president gets some of his ideas. Orientalism was wiped out because it was built on force. But there was still remnants of it left.

When I heard recently an ex-captain, with his own unaided and unassisted mouth, waging a war with Japan, I said to myself, "He is an oriental barbarian."

SUPT. WHITCOMB

Discusses the Question of Industrial Education

In a report to the school committee, Supt. Whitcomb has some very interesting things to say about school work especially with reference to industrial education. The report, in part, is as follows:

I did not attend the meeting of the school superintendents of the nation last February, a fact for which I owe the school committee and the public an apology, but I have been doing a little visiting near home of late, and have seen some things which have interested me much. In the hope that they will also be of some interest to you I report.

The superintendents of Essex county have what they call a North Shore association, with meetings monthly. This year they are studying industrial education at first hand, as far as may be, and at their first meeting was at Lawrence they were kind enough to invite me to join them. My company proving endurable on this occasion, they have continued to count me in ever since, to my great enjoyment.

Most cities of the country have had manual training, such as we have in the high school, in their grammar grades for some time. Its value there is generally conceded, and I have refrained from pushing it for Lowell only on account of the expense. More recently many cities have considered the opening of industrial or vocational schools, that is schools which teach trades, or the principles and practice which underlie trades, and a few have actually opened such schools. The experiment is one which deserves a close and sympathetic study.

The state offers to bear half the expense to any city which will open such a school. Lawrence has accepted this offer, and so far is the only city in the state to do so. The result is a school, both day and evening, in which sewing and cooking are taught to girls, and mechanical and textile work to boys. The school committee has nothing to do with the school, which is managed

by trustees appointed by the mayor, the state having thus far failed to assume the control to which the law entitles it.

Of pupils there has been no lack, especially in evening schools, where there was last winter a registration of 900 men and boys and 500 women and girls.

In the day school are 85 boys and 47 girls, with six men and two women teachers. The school has an equipment of donated machinery valued at \$50,000. Its annual cost is \$12,000.

In Beverly industrial opportunities have been offered to fifty boys through a half time arrangement with the United Shoe Machinery company of that city. One-half the boys work in the shop a week at a time under regular shop conditions, making a merchantable product for which they are paid half value. The other half of the value of the product is supposed to remunerate the company for the room occupied, the power, cost of material, cost of supervision, teaching, etc., and if it does more than this the company promises to credit the school with the balance.

Work began last August, and so far the company has reported no profit, but as the boys increase in skill (they can stay four years if they will) it is quite likely that profits will increase.

At the end of a week the boys return to school for a week, their place being taken by the other half of their mates, and so on alternately.

The school is planned to teach the things the boys need to learn for best results in the shop and in after life as mechanics. So far the experiment seems to work well. Some boys quit the job early, but those places have all been taken by others on a waiting list, a proof that the scheme is popular.

Last week two of the boys made between \$7 and \$8, really earning twice those amounts, pretty good work for boys on the first year of a half time apprenticeship. Best of all some boys

who were not doing at all well in school have improved greatly in manners, morals, and efficiency.

In Lynn the General Electric company, a large firm employing, I believe, some ten thousand workmen, has taken the matter wholly into its own hands, offering both education and training. Boys are paid eight cents an hour (ten if high school boys) for the first half year, ten cents the second half, twelve the second year, fourteen the third, and sixteen and one-half the fourth, for a four year course, with a further bonus of \$100 if the course is completed. One-third the time is passed in a schoolroom in the same building in which the boys work, and their pay is the same for time in school as for time at the bench. The company provides the boys with its very latest and best machinery, promises them its best mechanics as instructors, and the best men available for school-room teachers. At the end of the four years, the boy is sure to be a superior all round mechanic. The company will be glad to guarantee him employment if he will stay with it, as is the case with about two-thirds of those who graduate. Any boy fourteen years old and able to read and write is eligible, though more education and greater maturity is desirable. Between one and two hundred boys are now taking this course, but a hundred more would be welcomed.

Newton, as befits one of the wealthiest and most progressive cities in the country, asks no help from shops, either half time or full time, but tackles the job itself on a most liberal scale.

One-thousand citizens united in a gift of fifteen acres of land for a schoolhouse and athletic field within three minutes of the classical high school.

On this lot the city has built a technical high school house costing \$415,000. Some equipment is not yet in, and, land included, the total cost will be about a half million. In this house the girls are getting the domestic science course which I covet for Lowell. This is their first year, yet they were able to cook and serve a lunch to some fifty of us, which was well worth the 75 cents they charged us. The school has three courses for boys, a technology-college course, a general technical course something like our manual training course, and an extra technical course with more hours in the day, more days in the week, and eleven months in the year, which will practically be a trade course that is fit for a trade. Despite the fact that Newton is almost exclusively a residence city, more than one-third of the boys are taking this course, the technology course being the only other one to attract as many students.

The school just mentioned is, of course for students of high school grade, but for the boy who can't get to the high school, for any boy, indeed who can read and write and is fourteen years of age, the city has another school which interested me still more.

Funds for it are supplied by some generous giver whose name is not announced. The city gives the use of an old school house, and in this boys are working at carpentry, wood turning and carving, pattern making and casting, forge work and machine shop practice with a fair mixture of academic work suited to their condition.

The school has been in operation but little more than a year, and results are not yet worked out to a finish. The plan is, however, to help the boy to find himself, as the saying is, that is to find out what he can do best, and then to help him specialize along the line of his best aptitude. In the first year or year and a half, he will be well tested, and after he has "struck his gait" he will be helped to go on as is for his best good without regard to a general course. The school is possible. Much of the work is individual. The school started with 16 boys, and a teacher at \$1500. A half year later as many more entered, for whom a \$1200 teacher was provided. At the end of the third half as many more came, with another \$1200 teacher. Add equipment and supplies and we have a cost per pupil far greater than anything we have in Lowell, or than we can, perhaps, afford, and yet this is just the thing I should best like to see tried here.

Boston has a technical high school for boys, a domestic science high school for girls, and another school for girls unable to get into the high school. This latter school, which has a one year course, was first provided by private help but has proved so successful and useful that it has recently been assumed by the city. Not wish-

THE ROOSEVELTS

Left Paris for Brussels Today

PARIS, April 28.—Mr. Roosevelt's visit to Paris during which he was showered with honors terminated today when accompanied by Mrs. Roosevelt, Miss Ethel and Kermit he took a morning train for Brussels.

GENERAL MILES

NOT SO SERIOUSLY INJURED AS AT FIRST THOUGHT

WASHINGTON, April 28.—Two fractured ribs, a slight scalp wound and bodily bruises comprise the sum of the injuries to Lieut. General Nelson Miles, retired, who was thrown from his horse on Potomac drive late yesterday afternoon. Apprehensions of more serious injuries were entertained at first but after a night's rest which his surgeon pronounced very beneficial the soldier's injuries proved not so extensive as was at first thought.

Gen. Miles was taken to his apartment at his own request. He declined to be taken to the military hospital Port Meyer. He wanted to continue the memorable reception tendered him in Paris. He said that he regretted that he could not stay longer in the beautiful city and asked Commandant Bard to convey to the president an expression of his appreciation of the honors shown him as the guests of the nation and of the demonstrations of welcome upon the part of the public.

He warmly thanked M. Jusserand and Mr. Thiers for the courtesies received from them.

ROOSEVELT IN BRUSSELS

CITY SOLICITOR

CHOIR FESTIVAL

To Help Out the Playgrounds Scheme.

The College club in conjunction with a committee from the Women's club, is arranging for a novel entertainment to raise money for the employment of supervisors for the public playgrounds, such as Normal school girls of experience who are versed in handling children. The entertainment will consist of a church choir festival to take place on two evenings in some public hall or theatre. The entertainment will probably be on May 17 and 18.

Already the choirs of the Immaculate Conception, St. Patrick's and St. Peter's churches have agreed to contribute. The Methodist choirs will combine for the festival, likewise the Congregational and Universalist choirs.

Too much cannot be said or done in favor of the playground movement that is spreading itself like rays of sunshine throughout the country.

At the second annual playground congress of the Playground Association of America, one of the speakers said:

We want play—simply play—for the children of our cities. Those who are fortunate enough to live in the country have in their own homes the playground. The orchard, the meadow, the swimming pool, the nearby brook, constitute the never failing source for gratifying the appetites, the normal appetites of childhood in the country. And with that feeling akin to despair, we look upon the growing thousands teeming in the congested quarters of our cities with the slight opportunities of the roadway to take the place of the open country.

We do not think alone of them in their early years, but we look forward to the time when they come to play the parts of men and women in the world and we wonder what is to be the future.

The legislature intended to limit the exemption to the houses of religious worship alone, or to the portions of an edifice appropriated thereto, and their pews and furniture."

From the above it can readily be seen that the law on this point is well established and will remain so in the absence of any change in the statute.

I am, therefore, of the opinion that the parsonages and parochial residences of the various religious denominations in this city are not exempt from taxation.

Very truly yours,

Wm. W. Duncan,
City Solicitor.

POTHIER REGRETS

That Senator Aldrich is to Retire

PROVIDENCE April 28.—Expressing regret at the announced decision of U. S. Senator Nelson W. Aldrich not to be a candidate for re-election in 1911, Gov. Aram J. Pothier yesterday sent a letter to the senior senator from Rhode Island, in reply to one which he recently received notifying him of the decision.

Gov. Pothier says in his letter that Rhode Island "will surely derive the same measure of satisfaction as yourself in the knowledge that your successor will be a republican," and voices his pleasure that Senator Aldrich is to continue to serve as chairman of the national monetary commission. The letter is as follows:

"Providence, R. I., April 27, 1910.
"Hon. Nelson W. Aldrich, U. S. Senate,
Washington, D. C.

"My dear Senator: Your letter of the 17th instant informing me of your decision not to be a candidate for re-election to the U. S. senate in 1911 is at hand. I need hardly assure you that the course you have decided upon has occasioned keen regret among the representative body of Rhode Island citizens.

"While some of the marked prestige which Rhode Island has enjoyed at Washington because of your able execution of her commissions may, perhaps, seem to be missed after your retirement, she will surely derive the same measure of satisfaction as yourself in the knowledge that your successor will be a republican and that his efforts will be dedicated to the principles and policies of the party whose administration of affairs has given to our state such uniform prosperity and has brought to the republic a firmly established and universal honor and respect.

"The state and the country are to be congratulated upon having commanded

**The best way to carry Ashes
is in a Hod!**

Crawford Ranges

Have an Ash Hod in the base into which all the ashes fall far below the fire. They can't bank against the grates and warp them, and they can be emptied easily without spilling.

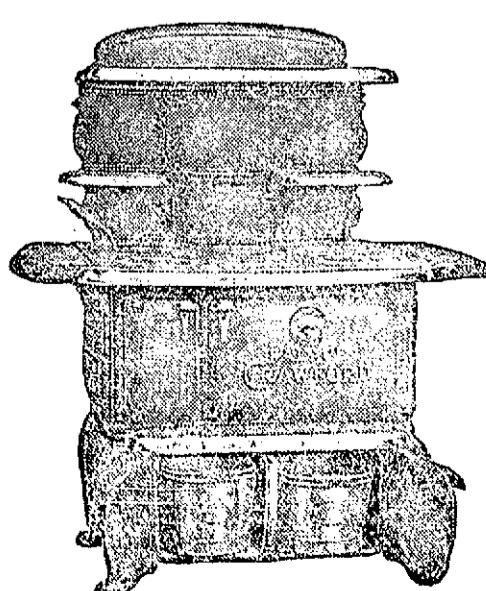

The Coal Hod is alongside the Ash Hod—out of the way. This feature is a wonderful labor and trouble saver and is patented.

Another trouble-saver of the Crawford is the patented Single Damper. One motion—slide the knob to "kindle," "bake" or "check"—the range does the rest. No damper mistakes.

The Oven has cup-joint heat flues that heat it alike in all parts.

Ask the Crawford agent to show you and write us for circular.

Suit Purchase

128 More Suits

\$9.89

Worth From \$18.00
to \$25.00

The quick sale of our last suit purchase sent us to New York again for more. And we got them. Better than the first lot even. All the latest modes in worsteds, diagonals, serges, panamas, etc. Some lined with silk serge, others peau-de-soi, others satin. All worth at least \$18.00. Seeing is believing.

SEE CORNER WINDOW

TUFTS STUDENTS BROCKTON MAN

Fought Fire in Home of Professor Gave Stomach a Three Weeks' Vacation

BROCKTON, April 28.—Next Friday morning James H. Yancey, 24, a motorman employed by the Old Colony street railway company, will and a turned firemen yesterday at a blaze in the house of Harry G. Chase, professor of physics at Tufts college, at 37 Sawyer avenue. The damage is estimated at about \$3000.

Edwin H. Robnett of Tyler, Tex., a freshman, was overcome by smoke and cut about the face and hands.

The fire was discovered at 2:25 p. m. Prof. Chase and Mrs. Chase were not in the house and boy #41 was rung in by Mrs. James J. Tucker, wife of Prof. Tucker.

Eight members of the Tufts baseball team, Capt. Charles E. Dustin of Dexter, Me.; George L. Hall of Somerville, Roy W. Dickinson of Wiscasset, Me.; Jacob F. Roberts of Medford, Almon G. Hooper of Tufts college, Martin W. Qualls of Ashuelot, N. H.; Oscar C. Bohlin of Somerville and Clarence M. Haskell of Newton Highlands, were practicing on the old campus, hardly 100 yards away. They were the first on the scene and fought the flames until the arrival of the apparatus.

The undergraduates, as the news spread, hurried from classes and assisted in removing the furniture and valuables from the house. It was during this work that Robnett was overcome.

He was lifted down from a first-story room and carried to his dormitory, Dean hall, where he was revived. Several members of the faculty also turned out and class work was suspended for the rest of the day.

The origin of the blaze is a mystery. Prof. Chase stated that a man had been employed in cleaning the cellar in the morning and that everything had apparently been left in good shape. The blaze was practically confined to the cellar and wall partitions.

Prof. Chase was conducting a class in Robinson hall when the fire was discovered.

CAVALRY TROOP

Escorted Chinese Prince to Hotel

WASHINGTON, April 28.—His imperial highness, Prince Tsai Tsao, brother of the prince regent of China, chief of staff of the Chinese army and uncle of the Chinese emperor who is making a tour of the world on a mission of vital importance to the future of the Chinese empire, arrived in Washington today. A troop of cavalry escorted the prince to his hotel.

Chandler Hale, assistant secretary of state, representing the state department and Captain Archibald W. Butt, the president's aide, representing President Taft, took the prince in charge the moment he arrived.

During his stay in Washington, which will extend until Saturday night, functions in honor of the prince and his party will be numerous and elaborate.

Ten officers of the Chinese army accompany the prince. They are making a study of military methods in Europe and America. One of the first entertainments will be a special cavalry drill at Fort Myer. Sunday morning the imperial party will leave for New York. They sail for England on May 5.

JACK JOHNSON

SAYS HE WILL BEGIN TRAINING

NEXT WEEK

SAN FRANCISCO, April 28.—Jack Johnson who arrived here last night, said that he would not begin training before the middle of next week for his fight with Jeffries and intimated that he would take matters leisurely until the middle of May.

"Why are people so much concerned about the time I am going to begin training?" he asked. "I have more to do than people watching me, and I will begin training when I get ready and that will be the middle of next week."

"You about those stories from Salt Lake that I am out of condition," he continued. "They are a pack of lies. I never started to train for a fight in better shape in my life. People are saying I have dissipated and the like. Well let them go and bet on Jeff in this fight and they will discover a few things."

ANNUAL MEETING

Of Cotton Manufacturers Association

BOSTON, April 28.—Four valuable papers dealing with power for textile machinery were present at the morning session today of the National Association of Cotton Manufacturers and with four more this afternoon together with the election of officers the annual meeting closes.

By invitation of the board of government, Dr. D. S. Jacobus of New York presented his ideas and suggestions relative to super-heated steam and super-heaters. This paper was quite technical but contained the results of the Idaho tests.

Then followed a paper by Mr. Lawrence.

The value of the electric drive for textile machinery was well presented by McLeod Merrill of Boston. He said that its reliability and flexibility have been appreciated by all who have tried it and the rapidly with which it is being installed at the present time would indicate that it is a drive to be given serious thought, especially by those who are contemplating newer mills.

The last paper of the session was also on power, by Charles T. Munn of Boston, who spoke on the choice of power for textile mills.

During his stay in Washington, which will extend until Saturday night, functions in honor of the prince and his party will be numerous and elaborate.

LATEST LARCENY CHARGED

Two Youths Entered Pleas of Not Guilty

The regular session of police court was held in the court of second sessions this morning owing to the fact that the regular court room is undergoing repairs and the chances are that it will be several days before the network of staging necessary for the kalsomining and painting of the interior of the room is removed.

Owing to the small quarters the prisoners were lined on two rows of benches, while the overflow of witnesses occupied seats in the corridor of the building.

Fined for Assault

Julia Kaznoba, charged with assault and battery on Thomas F. McNamara, aged 14 years, entered a plea of not guilty through her counsel, James Shuart Murphy.

McNamara, in testifying to the court, said that he and a boy named Regan and his brother, aged six years, were walking down Stackpole street the night before last on their way to Merrimack square to see the results of the baseball games and as they passed the tenement occupied by the defendant they saw her with a gall of milk bottles. They stopped and McNamara claims that while he said nothing to the woman she deliberately turned around and threw one of the milk bottles at him, the bottle striking him in the mouth and then broke it cut his upper lip and loosened several of his teeth.

During the cross examination he denied that he did anything to the woman which should cause her to assault him.

John T. Regan of St. Pleasant street, who was with McNamara at the time, corroborated the testimony offered by the first witness, and said that he was nearer to the woman than was McNamara.

The defendant, Julia Kaznoba, said that while she was placing a number of milk bottles in front of her house, the three boys, McNamara and his brother and Regan, came by and after calling her a vile name grabbed her and took improper liberties. She received the treatment and picking up one of the bottles struck McNamara in the face. She admitted that when the bottle struck the boy it broke.

Two other witnesses testified to seeing the incident, but their testimony was not in accord with that offered by the defendant.

Lawyer Murphy in arguing the case laid considerable stress on the fact that the assault was provoked and brought the question of race prejudice into the matter.

In summing up the evidence offered in the case Judge Hickey said that he did not see that there was any race prejudice. He did not believe that the boy gave the woman any provocation, despite the fact that she claimed that he did.

A fine of \$10 was imposed.

Milk Below the Standard

Jerome Champagne entered a plea of not guilty to a complaint charging him with having milk below the standard.

James E. Hill, of the milk inspector's department, said that he collected several samples from the defendant and turned them over to the milk inspector.

Melvin F. Master, Inspector of milk, after taking the stand, said that he was given two samples which were marked "25" and "26." The sample numbered "26" was all right, but he said the other one showed very poor milk, a result of analysis. In the latter sample there was but 11.69 per cent. milk solids while there should have been 12.15. There was 8.34 solids not fat, 3.35 fat and 88.31 water.

Witness stated that he had received samples from Mr. Champagne before and finding that they were below the standard notified him to be careful in the future.

Champagne said that the milk which was found in his possession was just as it came from the dairy, and that he did not touch it, that is to say that he did not adulterate it.

He was found guilty and a fine of \$15 was imposed.

Robbed His Father

Peter Bellorose and Alfred Marchand were charged with drunkenness and the larceny of clothing valued at \$34 the property of Joseph Bellorose, the father of one of the defendants. Pleas of guilty were entered by both young men to both charges.

It is said that the young man while under the influence of liquor entered the Bellorose house in Tucker street and kicked out the side of a trunk and took the clothing. It is alleged they later pawned it and after disposing of the articles got more liquor and while passing through Dutton street late yesterday afternoon were arrested by Patrolmen Abbott and Breault. This morning Inspector Lafamme recovered the clothing.

Owing to the fact that Bellorose was on parole from the Concord reformatory he was returned to that institution and Marchand was sentenced to the same place.

Sent to Jail

Frank Stone, who appeared before the court yesterday on a charge of the larceny of a coat from Ellen Caw-

ley of 20 Appleton street, was this morning sentenced to two months in jail. The court in imposing the sentence said that while the man had led a good life up to the present time his condition warranted his confinement for some time.

Case Continued

Evanjelos Quovangikas, with the right side of his face swathed in plaster and a bandage, was in court to appear against Vasilius Pone, who it is alleged struck him with a stick last night. At the request of counsel the case was continued until tomorrow morning.

Drunken Offenders

Henry Miller said that he was not drunk, but Special Officer Mahan said that the man was very much under the influence of liquor when he placed him under arrest. The officer said that he found Miller lying on the sidewalk at the corner of Suffolk and Ford streets about 12 o'clock last night.

During the course of the defendant's remarks he said that he came out of jail yesterday morning, but denied that he had been drinking. He was sentenced to the state farm.

John Ward, charged with being drunk, was sentenced to the state farm and John Linsman and Edward R. Smith were each fined \$5.

The latest and best thing Dows has got out is his Easy Corn Plaster, 10c, 50c and 50c.

WOMAN ESCAPED

CORONER SAYS THAT SOME ONE WAS LAX

NEW YORK, April 28.—Coroner Hellenstein, who is conducting the inquest into the death of Wellington Smith, the paper manufacturer of Lee, Mass., who was killed when a folding bed in a furnished room house closed down on him and a woman companion early yesterday morning, was incensed today at what he termed laxity on the part of somebody for allowing the woman in the case to get away. The coroner said the woman was wanted as a material witness at the funeral and that the police have not the slightest clue as to her identity or where she had gone. Dr. W. H. Weston of West 28th street, who was called in at the time of the accident, says that the woman asked him to take her to his home and when he refused asked that a cab be called to take her to friends in West 70th street. Leon Stowe, an undertaker, who had charge of the body, said he had sent the body home from his rooms on West 51st street, and intimated that relatives of the dead man knew the woman. Coroner Hellenstein said he would conduct a search for the missing woman.

VERDICT OF \$12,500.50

Rendered Against the City of Malden Today

In Favor of Charles R. Elder—
The Case of Mann vs. Moore Spinning Company, a Suit for Loss of an Eye, on Trial Today

The case of Charles R. Elder vs. the City of Malden went to the jury after a trial of several days duration yesterday afternoon, and this morning a sealed verdict was returned. The jury found for the plaintiff in the sum of \$12,500.50.

Mr. Elder, who is a well known lawyer, was employed by the city of Malden in litigation with the Commonwealth relative to the taking of Spot pond by the state. In this case the city of Malden was awarded a verdict of \$279,582.74. In payment for his services the city of Malden gave Mr. Elder the sum of \$15,000, which he deemed inadequate and he brought suit for additional compensation. The case was heard before an auditor, who awarded Mr. Elder \$10,000 in excess of the \$15,000 already received by him. The city of Malden declined to pay the additional amount and hence the suit just finished, in which Mr. Elder sued for the amount of the award and interest. John C. Burke of this city appeared for Mr. Elder.

The plaintiff, Mann, resumed the stand at the opening of court this morning and related the nature of his injuries. He stated that on the day of the accident, June 20, 1907, he was taken to St. John's hospital, where he was treated for several days. He returned to the hospital some time later when an operation was performed by Dr. Lenhey, who removed the injured optic. He stated that he has been unable to do any work since.

Cross examined by Lawyer Dunbar, witness stated that he had never had trouble with his eyes but admitted that he wore blue glasses at the time of the accident on account of a weakness of his eyes. Witness stated that he had never had his eyes treated before the time of the accident. Witness admitted that he had worked in the Moore Spinning Co.'s plant prior to his employment on the gill boxes, but had never worked on them before.

DEATHS

MCGRAH

McGRAH—John McGrath, aged 25 years, a former resident of this city, died yesterday at the Red Cross hospital, Brooklyn, N. Y. He leaves a sister and a brother. He was the son of the late Mrs. Jas. Boyle, wife of Police Officer James Boyle of 35 May street. The body will be brought to this city by Undertakers J. F. O'Donnell & Sons.

DEBRAGA

DeBRAGA—The funeral of Jose Carvalho DeBraga took place yesterday afternoon from the home of his parents, 6 Garfield street. The cortage proceeded to the Chelmsford Street Free Baptist church, officiated. There was singing at the house and grave by Miss Katherine Gordon and John McElvey. The bearers were J. W. Harriman, F. P. Lord, R. McCormick and John McElvey. WON \$50,000 PRIZE

Paulhan Finished First in Great Aerial Derby

MANCHESTER, Eng., April 28.—The first aerial derby for a prize offered by an Englishman has been won by a Frenchman and handsomely. Upon landing here Louis Paulhan was given a tremendous ovation and unstinted praise for his remarkable feat. At the same time his less experienced but no less plucky competitor is being showered with congratulations over his splendid attempt and because he has shown himself a good loser. As soon as Graham White learned of Paulhan's success he called for three cheers for the victor. Paulhan, winner of the \$50,000 prize for the first flight from London to Manchester made within 24 hours and with not more than two stops arrived here at 5:30 o'clock this morning, almost exactly 12 hours after he left London last evening. White, who got away from the metropolis an hour later again met misfortune and was obliged to descend at Polesworth and abandon the race after having covered a little more than half the distance. White, who is hardly more than a novice in the art of aviation, encountered treacherous wind currents which thrice turned his machine around, and he also experienced trouble with his motor. Paulhan was benumbed with the cold and thoroughly exhausted when he reached here. A great crowd awaited him and gave him a sportsmanlike welcome. Manchester first saw the French aviator a few minutes after five coming as steadily as a steamer on a smooth sea and heading directly for the field which he had chosen as a landing place. Flying at a height of 400 feet, Paulhan came over a clump of trees and then, bringing his biplane around with a beautiful curve, landed exactly in the center of the field. He seemed dazed and numb and swayed as he walked down the field. All he could say was "I am very cold, but very happy."

The aviator received a cordial reception but he was too tired to reply to the ovation. Presently he went to a hotel and retired.

The aviator received a cordial reception but he was too tired to reply to the ovation. Presently he went to a hotel and retired.

The office of the affair were: General manager, William Regan; assistant general manager, Frank J. Dolan; floor director, Thomas Robinson; assistant floor director, James H. Buckley; chief pilot, Robert Stavely; Miss James Keating, Edward Perry, H. J. Roberts, Thomas Howard, Joseph Murphy, James Regan.

Reception committee: Peter Gallagher, chairman; Louis Weller, Henry Matson, George Hayward, George Maguire, J. P. Quincy, A. Gaudette, James Usher, William Adams.

Chairman of committee, William Regan; secretary-treasurer, T. Robinson.

ANNUAL CONCERT GIAMBRONE HELD

By the Lowell Military Band

The 17th annual concert and dance of the Lowell Military band was held last night in Associate hall. There was a large attendance and the affair proved to be the most successful ever conducted by the members of the band.

There was a concert program carried out during the early part of the evening, after which dancing was enjoyed.

The concert program which was given under the direction of William Regan was as follows:

March, "74th Regiment"; F. H. Leyse

Overture, "William Tell"; ...; Rossi

Duet for Cornets; ...; Selected

Messrs. F. J. Dolan and J. H. Buckley,

Waltz, "Wedding of the Winds";

J. T. Hall Novelty, "The Racket at Gilligan's"; L. O. DeWitt

March, "National Anthem"; E. E. Bagley

After the concert there was dancing by music supplied by a large orchestra and by the full military band. This was kept up until midnight.

The Lowell Military band is one of the oldest organizations in this city in this city. It had its inception September 16, 1878; when it was called Post 42, G. A. R., Drum Corps. In 1882 it was first formally organized as the Lowell Military band and Mr. James A. Murphy was chosen leader and served continuously until his retirement two years ago. Of the original members of the band who are at present playing with the organization there remain just four: William Regan, the conductor; Peter Gallagher, George Hayward and James Regan.

The officers of the affair were: General manager, William Regan; assistant general manager, Frank J. Dolan; floor director, Thomas Robinson; assistant floor director, James H. Buckley; chief pilot, Robert Stavely; Miss James Keating, Edward Perry, H. J. Roberts, Thomas Howard, Joseph Murphy, James Regan.

Reception committee: Peter Gallagher, chairman; Louis Weller, Henry Matson, George Hayward, George Maguire, J. P. Quincy, A. Gaudette, James Usher, William Adams.

Chairman of committee, William Regan; secretary-treasurer, T. Robinson.

Read my proof on page four.

THE PROBE BOARD

To Investigate System of Factory Inspection

BOSTON, April 28.—Miss Emily Batch of the Wellesley college faculty, Albert R. Apsey of Cambridge, Dr. Herbert C. Emerson of Springfield, John Golden of Fall River, and James W. H. Myrick of this city, were appointed by Governor Draper yesterday as a commission to investigate the general subject of the inspection of factories, workshops, mercantile establishments and other buildings.

This commission was created by a recent act of the general court to study the system of the factory inspection as it is administered by the district police, the state board of health and the local authorities, to determine if there is any duplication of work or absence of proper inspection, to consider the needs of extending the scope of such inspection and to recommend such changes in the law as shall seem necessary to co-ordinate the work and to secure greater efficiency and economy in such inspection.

Miss Batch is assistant professor of economy in Wellesley college. She has made a special study of factory inspection both here and abroad and is one of the officers in the Women's Trade Union League association. Miss Batch was born in Jamaica Plain, where her relatives now live.

Dr. Emerson was strongly induced for the position from the western part of the state. He is a graduate of Amherst college and the Harvard Medical school, and studied two years abroad.

A. S. Apsey is well known in legal and political circles. He was a member of the state senate in 1901 and 1902.

John Golden of Fall River is international president of the Textile Workers.

James W. H. Myrick of Boston is well known as a ventilating engineer. He is a member of the American Society of Heating and Ventilating Engineers. Commander-in-Chief William H. Van Sant, who recently paid a visit to this city, has honored the Lynn G. A. R. by appointing him a colonel on his staff. Notice of the appointment was received by Mr. Goldsmith yesterday, and he was immensely pleased.

During Commander Van Sant's visit to Lynn he met Mr. Goldsmith, and when he learned of his remarkable use was keenly interested in the record of the Lynn man.

LYNN VETERAN

IS HONORED BY THE G. A. R. COMMANDER

LYNN, April 28.—In recognition of the remarkable record of Edward T. Goldsmith, Lynn's 93-year-old resident, and one of the oldest, if not the oldest, member of the Grand Army of the Republic, Commander-in-Chief William H. Van Sant, who recently paid a visit to this city, has honored the Lynn G. A. R. by appointing him a colonel on his staff. Notice of the appointment was received by Mr. Goldsmith yesterday, and he was immensely pleased.

Following Commander Van Sant's visit to Lynn he met Mr. Goldsmith, and when he learned of his remarkable use was keenly interested in the record of the Lynn man.

MATRIMONIAL

Mr. Thomas J. Phelps and Miss Minnie McLean were united in marriage at the home of the bride's mother, Mrs. Mary J. McLean, 240 Hale street, last evening at 6:30 o'clock.

The ceremony was performed by Rev. George E. Tomlinson, formerly assistant pastor of the First Baptist church, and now of the Baptist church in Southbridge. The bride was given away by her mother. The best man was Robert Friend, and also officiating as flower girl and ring bearer were Miss Minnie Brown, a niece of the bride, and Master Robert Friend, a nephew of the bridegroom. Following the wedding there was a reception. Mr. and Mrs. Phelps received many gifts. They will upon their return from a wedding trip live at 210 Hale street.

HOWARD-SMITH

Mr. James A. Howard and Miss Catherine C. Smith were united in marriage Thursday afternoon by Rev. Lawrence F. Tighe, O. M. I. The bride was attended by Miss Mary Howard, sister of the bridegroom, while the best man was Mr. George Smith, a brother of the bride. The bride was charmingly attired in a gown of cream lambdowne and wore a white picture hat and carried a large cluster of roses. The bridegroom wore blue silk and a picture hat and carried tea roses. At the conclusion of the ceremony the bridal party repaired to the home of the bride, where a reception was held to relatives and immediate friends. Mr. and Mrs. Howard left on the 4 o'clock train for New York, Washington, Baltimore and Philadelphia.

Howard's injuries were caused by his being hit on the head by a pitched ball.

They will be at home to their friends after May 15.
